

# WATCH WIRELESS CHARGER

## PRELIMINARY OPERATIONS

Connect the cable to the Micro USB socket, and place the smart watch on the wireless charger. If the watch is on, it indicates that the charging is in progress. At the same time, you can check the battery charge status on the smart watch screen.

Note: for recharging your Smartwatch, WIRELESS CHARGER must be powered by an adaptive charger or alternatively a charger with at least a 1A charge.

WIRELESS CHARGER is compatible for use with most of the cases on the market and charging times may vary depending on the thickness of the case.

Also make sure that there are no metallic or magnetic elements between the Smartphone and the charger.

## TECHNICAL SPECIFICATIONS WIRELESS FAST CHARGER STAND KIT

Input Voltage : DC5V from adapter

Antenna Type : Coil

Frequency band: 320-325 KHz

Shenzhen Yinai Intelligent Manufacturing Technology Co., Ltd declares that this wireless charger complies with Directive 2014/53/EU. Shenzhen Yinai Intelligent Manufacturing Technology Co., Ltd also declares that this wireless charger complies with Directive

## INFORMATION ON THE STATUTORY WARRANTY

Our products are covered by a statutory warranty against conformity defects in accordance with applicable national consumer protection

Use the watch charger only as instructed in the packaging. Must be powered using a suitable watch charger.

Protect the product from dirt, humidity, overheating and use only in dry environments, avoiding all contact with liquids.

Do not expose to the sun, high temperatures or flames.

If the cable is dropped, ensure it is not damaged before using it again.

Keep far from the reach of children.

**FCC Warning**

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.
