ESP-SW24B User Manual

Function introduction

1.   If the indicator light does not light up, please check whether the power of the speaker is sufficient. Connect the speaker to a 5V/1A power supply to charge. The charging time is about 3 to 4 hours.
2.   If there is no sound from the microphone, may be the microphone is not turned on, the mode is incorrect, or the mic volume has been closed. Please adjust the microphone volume.
3.   If there is no reverb in the speaker, the reverb may be closed. Please turn on the reverb volume on the microphone.
4.   If there is noise from the microphone, it may be due to environmental noise, signal interference, or the microphone is too close to the speaker, etc. Please re-adjust the direction of the microphone.
5.   If Bluetooth playback is interrupted, maybe Bluetooth transmission distance is too far, or there are obstacles between the mobile phone and the speaker that affect signal transmission. Please move speaker more closer to the connected mobile phone
and avoid obstacles.
6.   If Bluetooth cannot be connected, maybe the distance is too far, there are obstacles between speaker and phone, or this speaker connected by other mobile phones Please move the speaker more closer to the mobile phone, avoid obstacles and disconnect the other connected mobile phone.
7.   If it cannot be charged, check whether the charger is normal and whether the red indicator lights up when the speaker is charging

FCC COMPLIANCE STATEMENT:
This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received,
including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference
to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
