# Product Specification

	Product Performance
Model name	Sherman max
Top free spin speed	98km/h
Safe riding speed	25km/h
Motor power	2800W
Battery	Samsung 50E 100.8V 3600WH
Max gradibility	30°
Operating temperature	-10-80℃
Max load	120kg
Charger	100.8V 5A
Charging time	8.5h
Color	Black
	Dimension and weight
Dimension	500mm x 195mm x 605mm
Net weight	39kg
Pedal dimension	250mmx130mm
Pedal altitude(from ground)	170mm
	Hardware
Mainboard	Customized connectors to fix wires firmly;12pcs Mosfets make it more durable.
Cooling fan	Dual cooling fans,set up at 45℃.
Tire size	20inch off road tire.
Trolley handle	Central mounted build in.
LCD panel	Display speed, battery voltage, mileage, mode switching, calibration, battery status etc.
Metal bars	Anti scratch of shells.
Charge port	Dual charge ports,support 10A max.
Headlight	1500lm modularization light.
Taillight	Turning, braking warning lights.
	Software
Incline protection	Stop rolling once wheel body inclining 45°
Speed limit	Can be set through LCD panel.
Low battery protection	Alarm at 78V, tilt back at 75.6V
Battery protection	Overcharged, over-discharged, Charging port out put short circuit protection
Mainboard over heat protection	85℃.
Calibration	Set through LCD panel.
	Package
Gross weight	44.5kg
Size	720mm x 590mm x 360mm

## 2. Maintenance

## FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

### RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
