

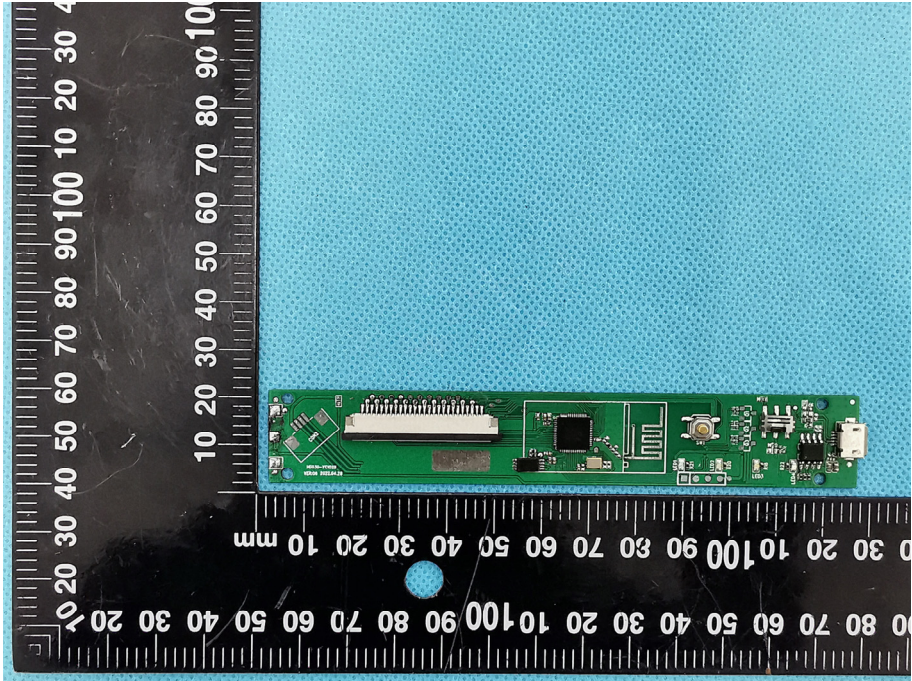

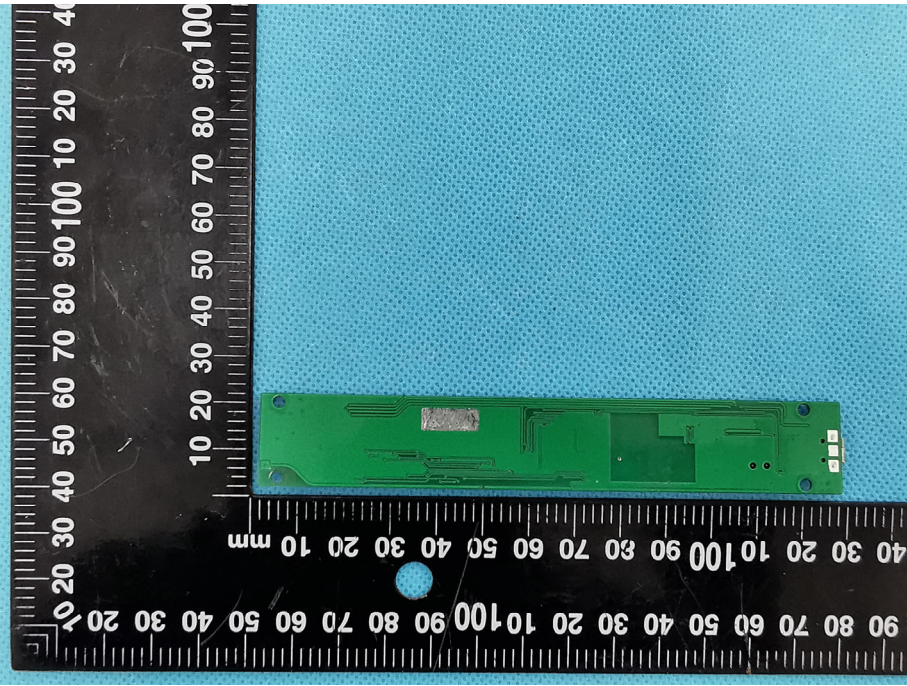

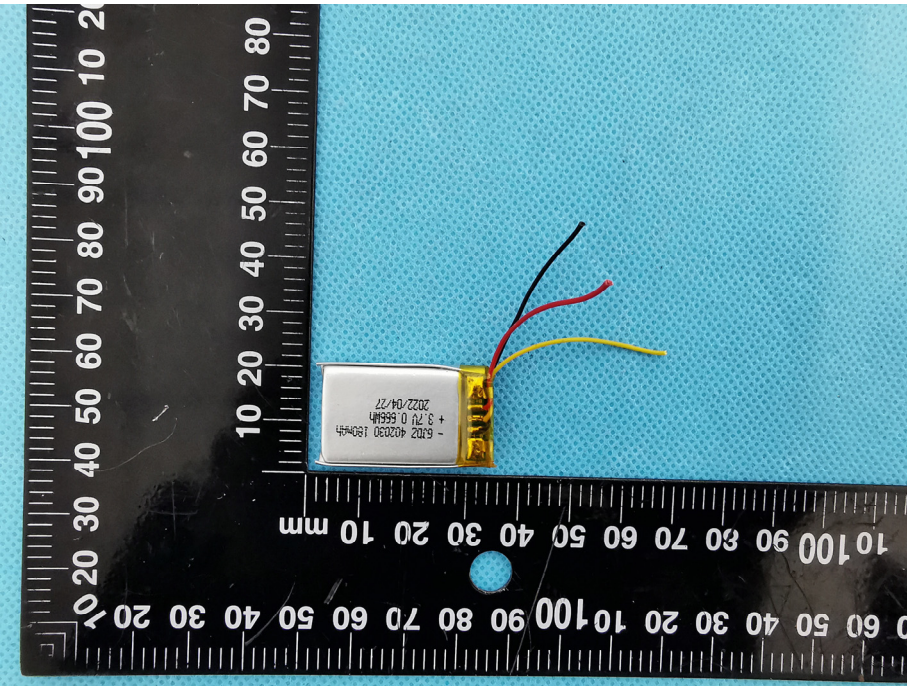

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the internal components of an EUT (Electronic Under Test) device. The device is open, revealing a black plastic housing and a green printed circuit board (PCB) with various electronic components. A black ruler is placed vertically on the left side of the device for scale, showing measurements in millimeters. The background is a solid blue color.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of the solder board component. The board is green and features various electronic components, including a large integrated circuit (IC) and several smaller components. A black ruler is placed vertically on the left side of the board for scale, showing measurements in millimeters. The background is a solid blue color.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph showing a green printed circuit board (PCB) component. The component is rectangular and features various traces and a small white component on its surface. It is placed on a blue textured background. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters from 0 to 100. The component's length is approximately 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph showing a small, rectangular component with a white label and three wires (black, red, and yellow) extending from it. The label contains the following text: "440544", "+ 3.7V 0.55Ah", "2022/04/27", and "- 6302 402030 1820544". The component is placed on a blue textured background. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters from 0 to 100. The component's length is approximately 30 mm.</p>
