

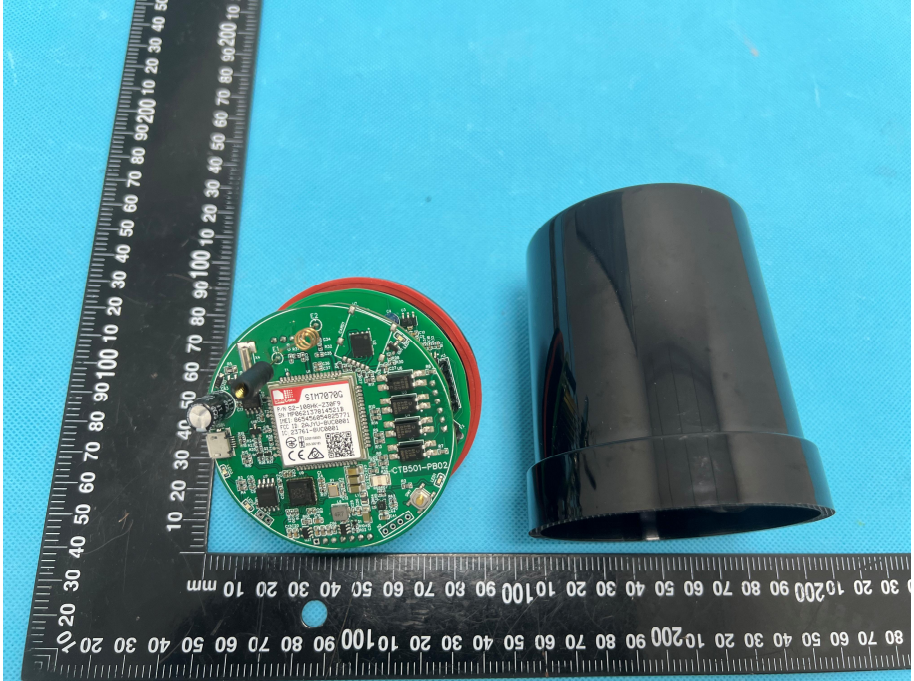

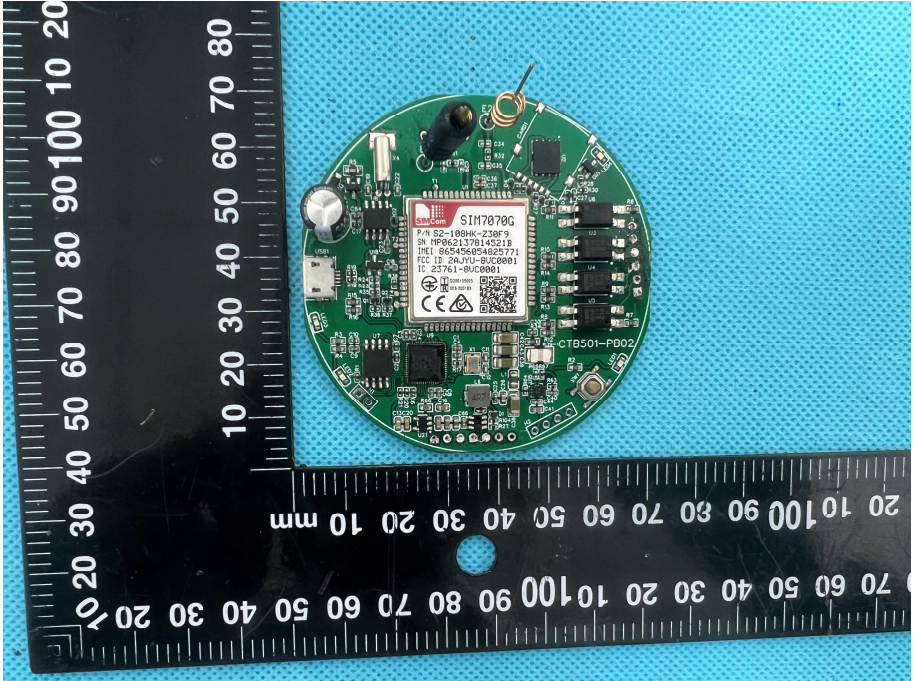

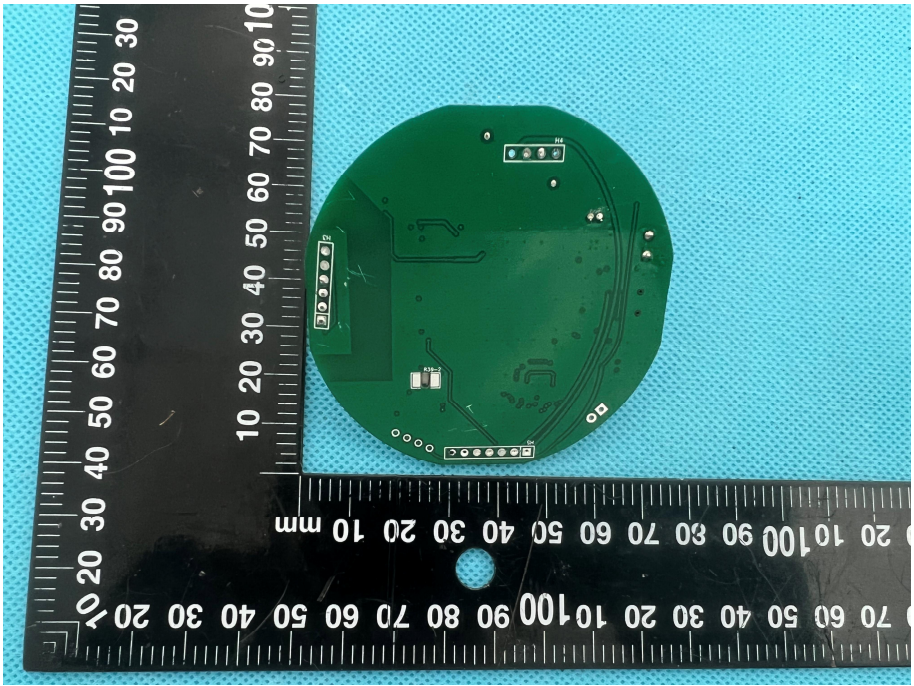

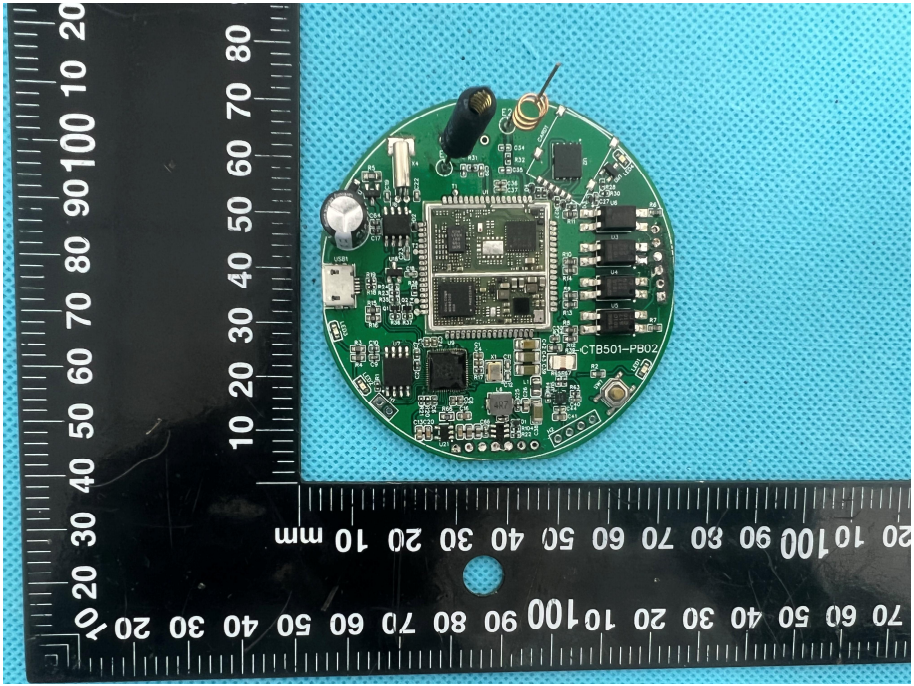

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing a circular green printed circuit board (PCB) and a black cylindrical plastic housing. The PCB is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's diameter being approximately 60 mm. The PCB has various components, including a white SIM card labeled 'S1H7670C' and a small black component labeled 'CTB501-PD02'. The black housing is placed to the right of the board, showing its open top.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of the circular green PCB, showing the soldered components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's diameter being approximately 60 mm. The PCB has various components, including a white SIM card labeled 'S1H7670C' and a small black component labeled 'CTB501-PD02'. The solder joints are clearly visible, and the components are densely packed on the board.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A circular green PCB is shown against a blue background. A black ruler with white markings is placed around the board for scale. The board has several components, including a small rectangular component on the left and a larger one on the right. The ruler shows measurements in millimeters, with the board's diameter being approximately 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A circular green PCB is shown against a blue background. A black ruler with white markings is placed around the board for scale. The board is densely populated with components, including a large central chip, several smaller chips, and a black cylindrical component. The ruler shows measurements in millimeters, with the board's diameter being approximately 100 mm.</p>
