1. This product is only suitable for adults, minors are prohibited;
2. If you feel uncomfortable during use, please stop using;
3. Periodically check whether the product is damaged, please stop using if it is damaged;
4. Operation this product contains sensitive electronic components. If the battery is dropped, burned, punctured or squeezed pressure, it may be damaged. If you suspect that the product or battery is damaged, stop using it because it may
Causing overheating or injury;
5. Do not try to replace the battery by yourself. The lithium ion battery of the product should be replaced by Leten or an authorized service provider change. Improper replacement or repair may damage the battery, resulting in overheating or injury. Before the product is discarded.The battery needs to be removed, and the power must be cut off before removing the battery, and the battery needs to be disposed of safely; the battery must be separated from the family separately recycle or dispose of garbage. Do not incinerate the battery;
6. If you want to charge the product, please use the attached cable in compliance with applicable country regulations or the following

one or more standard power adapters: EN301489-34, IEC62684, YD / T 1591-2009, CNS 15285, ITEL.1000 or other applicable mobile phone power adapters usability standards. Use only those that comply with applicable international and regional safety standards (including IEC60950)adapter charging; using damaged cables or chargers, or charging in a humid environment can cause fire disaster, electric shock, injury or damage to products or other property. Before plugging the adapter into a power outlet, please make sure the USB cable is fully inserted into the power adapter;

7. The product meets applicable surface heat standards and restrictions. However, even within these limits, long continuous contact with hot surfaces for time may also cause discomfort or injury if your body appears to affect the body.Be aware of the condition of the ability to sense heat; please be careful when using it for people who are not sensitive to heat.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
