### WHAT'S INCLUDED

- 1x 2.4G Wireless Silent Mouse
- 1x USB Receiver
- 1x Set of Anti-slip Sticker Pads
- 1x AA Battery (included)
- 1x Quick Starter Guide

### SETTING UP

1. Open the battery cover and remove the USB receiver from its place.
2. Insert the included AA battery following the positive (+) and negative (-) markings.
3. Put the battery cover back into place.
4. Plug the USB receiver into an available USB port on the host.
5. Turn on the mouse by switching the power button to the down position. The optical sensor will turn red once powered on.

The mouse is now ready for use.  
Plug and play - no drivers needed.

- Polling Rate: 125Hz
- Frequency: 2.4GHz
- Weight: 68 grams (approx)
- Dimensions: 10.76 x 6.0 x 2.62cm
- Working Distance: Up to 26.2-32.8ft
- Auto Standby: After 10 minutes of no operation, you need to press the button to wake up when entering sleep mode.

IMPORTANT SAFETY INSTRUCTIONS

IMPORTANT

Before using and operating this device, please read and understand the following:

- Clean the mouse with a soft, dry cloth. Do not use solvents or abrasives to clean the mouse.
- Do not use the mouse in extreme temperatures.
- Protect the mouse from prolonged exposure to direct sunlight.
- Avoid operating mouse in humid environment.
- Do not disassemble the mouse. There are no self-serviceable parts.
- Handle with care to avoid potential damage.
- Do not use the mouse if it is damaged or malfunctioning.

CAUTION: Do not stare directly into the optical sensor.

WARNING: Keep this product out of reach of children. It is not a toy and contains small parts that could pose a choking hazard.

Battery Safety

WARNING: AA batteries contains chemicals that can be harmful if not handled properly. Please follow these safety precautions to avoid injury or damage:

- Keep AA batteries away from children and pets. They can be choking hazards or cause internal injuries if swallowed.
- Do not dispose of AA battery in the trash. Look for designated battery recycling locations or follow your local guidelines for proper disposal.
- Do not short-circuit the battery terminals. This can cause overheating, leakage, or damage.
- Do not puncture or crush AA battery. This can lead to leakage or explosion.

- Do not expose AA battery to extreme temperatures. This can damage the battery and shorten its lifespan.
- If a battery leaks, do not touch the leaking material. Wear gloves and dispose of the battery according to your local waste guidelines.
- If battery leakage comes into contact with your skin or eyes, flush the affected area immediately with clean water for at least 15 minutes and seek medical attention.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference.
- 2) This device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equip-

ment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
