# User Manual

Pet Grooming Kit & Vacuum

Before using, please read the manual carefully and keep it properly for reference

## Safety Instructions & Precautions

Please do not use wet, canned or moist food.

Please do not attempt to repair or modify the pet feeder yourself.

Please do not use the data cable for any other purpose.

Children must be used under the guidance of an adult.

If you need to use an extension cord, please use the same grade one.

To prevent food clogging, the kibble size should not be more than 10mm.

Please be sure to unplug the power supply before installing and removing the accessories.

Please do not store this product in humid place and do not use it for any other purpose.

Please do not immerse the body and power supply in the water or the electronic components will be damaged.

Using product accessories not provided or recommended by the original manufacturer may cause unsafe conditions.

Please do not put any items except dry food into the food storage bucket because it may cause abnormal conditions even pet safety problems.

Please place the feeder horizontally. It is recommended to place it against the wall to prevent tripping over the wire or being torn by pets.

If you do not use the product for a long time, please remember to remove the battery and unplug the power supply.

Please read the cautions on the manual and package carefully.

This product uses 4 AA batteries as a backup power supply, please use double power supply to ensure the normal use of the product (batteries not included).

10. Bowl Tray

# Assembly and Prepare For Setting

## Step 1 Connecting Power

1

Power Cable

● Insert the 5V power adapter into the socket, plug in power cable of the feeder.

2

Battery

● Open the battery compartment at the bottom of the unit. Install 4 AA batteries (Not Included) in case of home outage (can not be used as the main power).

4

Indicator

● The indicator under the camera will flash rapidly automatically means the feeder is on.

5

● When installing the food tank, please assemble and follow the instruction as shown in.

● Food inlet should be the same direction as the dispensing outlet.

6

● Please pay attention to the impeller direction

## Step 2 Filling Food Tank

7

● Fill food tank with dry pet food.

### ▲ Note:

1. Please fill food tank with dry pet food, and do not use canned, wet or moist pet food.
2. Recommend kibble size ranging from 5-10mm/0.12-0.4in in diameter.

## Step 3 Assembling the Food Tray

8

● Align the bulging of the food tray and holes in the base, and push upward to connect the two.

● Put on the stainless steel feeding bowl.

9

● Close the lid and lock the safety lock.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
