### Operation Instruction:

Operation instruction:
To use the wireless charger, connect it to a power supply using the included charging cable. When charging a mobile phone, place it flat in the charging area to start charging and remove it once fully charged. If you need to stop charging during the process, simply remove the phone. To charge an Apple Watch or Alfrods, place them flat in their respective charging areas and remove them once fully charged. If you need to stop charging during the process, just remove the device.
