

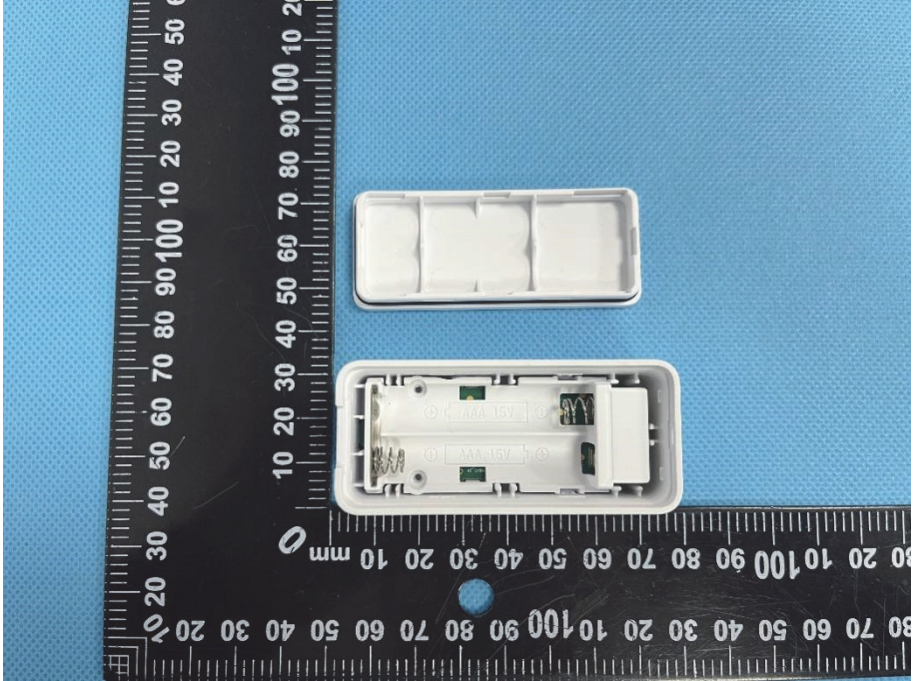

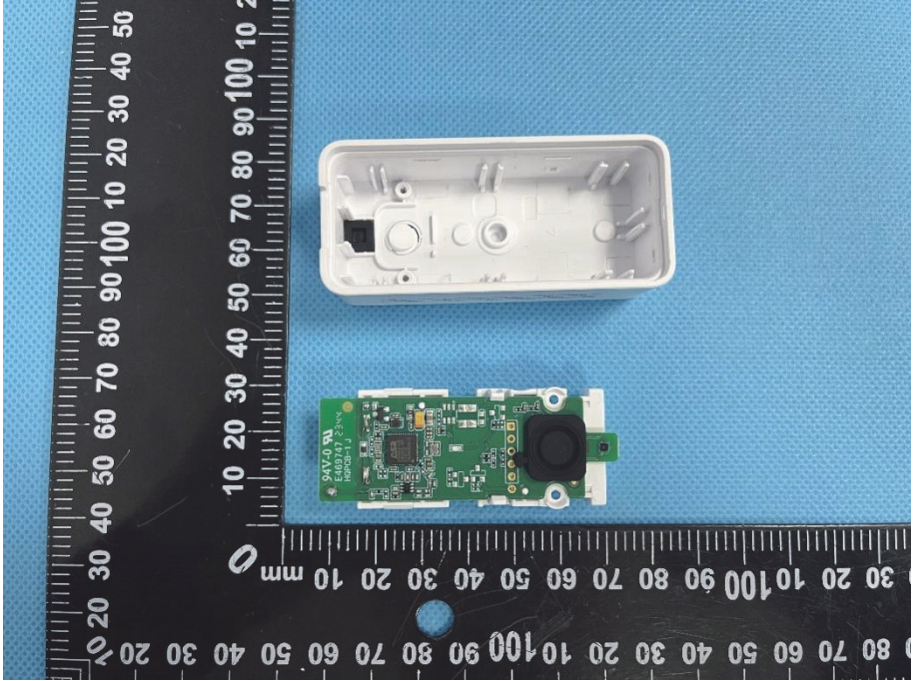

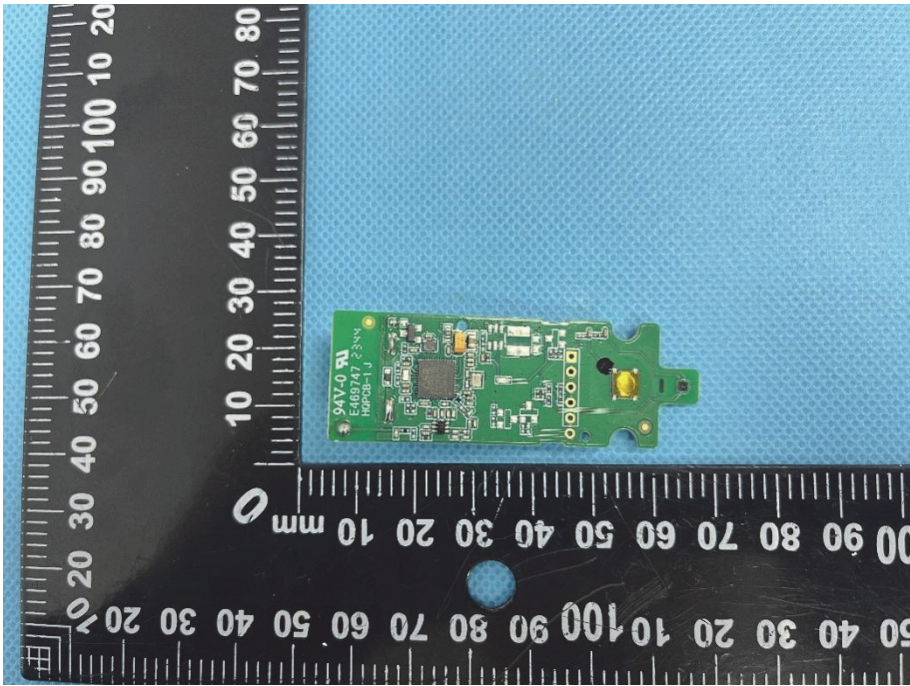

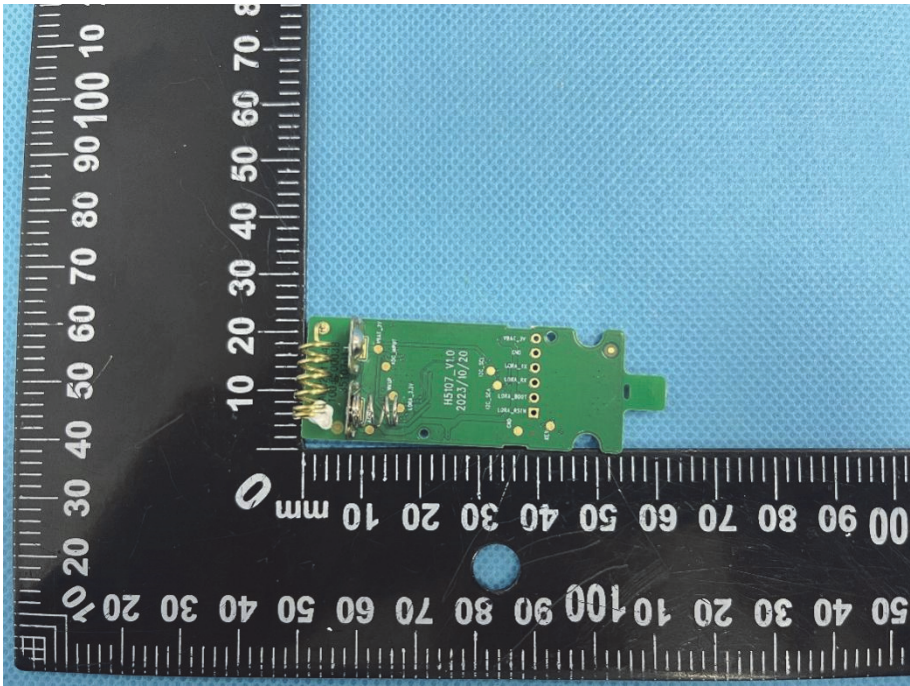

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the white plastic housing of the EUT. The top half of the image shows the closed housing, and the bottom half shows the housing with the internal board removed. The board is populated with two integrated circuits, both labeled 'MAX157'. A black ruler is placed vertically to the left of the housing for scale, with markings in millimeters.</p>
<p>EUT Housing and Board View 2</p>	 <p>This photograph shows the white plastic housing of the EUT. The top half of the image shows the open housing, and the bottom half shows the green printed circuit board (PCB) populated with various components, including a large black component. A black ruler is placed vertically to the left of the housing for scale, with markings in millimeters.</p>

<p>Solder Board-Component View 1</p>	 <p>A photograph showing the top view of a green PCB component. The component is rectangular with a notch on the right side and a gold-colored circular feature. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows the component is approximately 40mm wide and 20mm high. Text on the component includes '9AV.0', 'E4892A', and 'HAP02-1J'.</p>
<p>Solder Board-Component View 2</p>	 <p>A photograph showing the bottom view of the same green PCB component. It features a gold-colored connector strip on the left side and several circular solder pads. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows the component is approximately 40mm wide and 20mm high. Text on the component includes 'H5107 V1.0' and '2023/07/20'.</p>
