

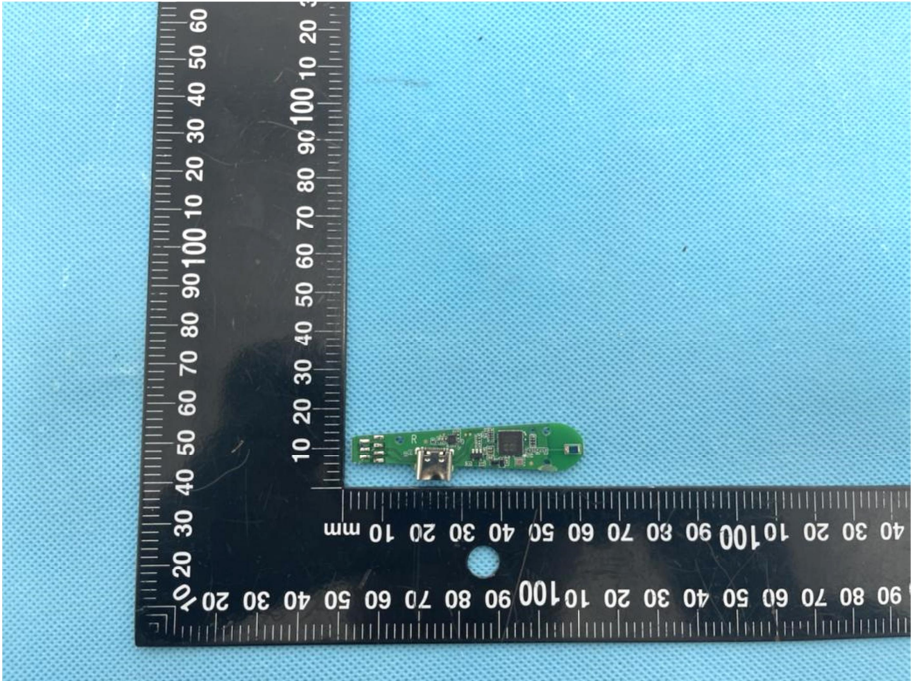

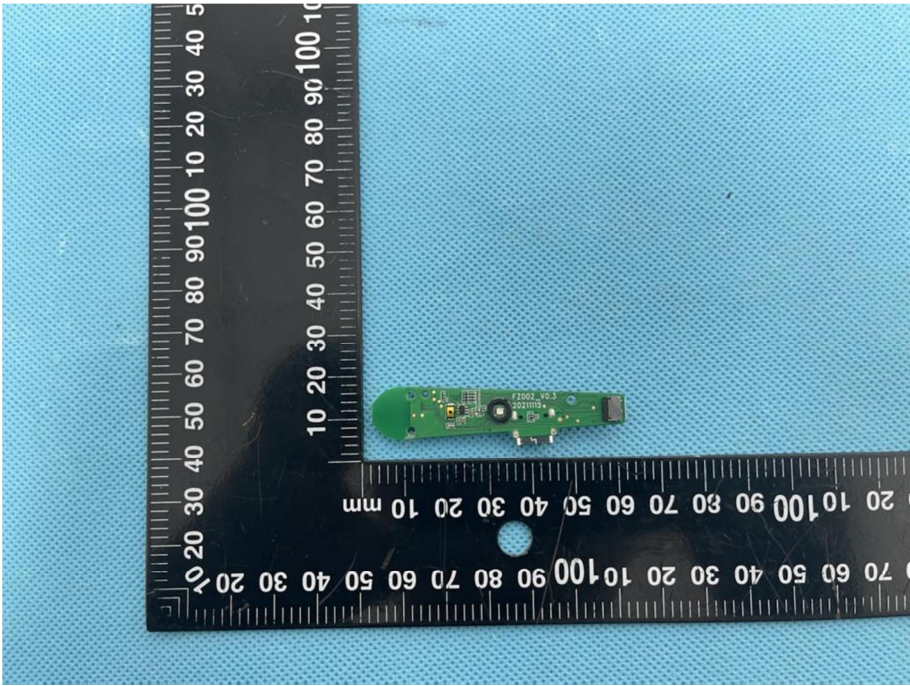

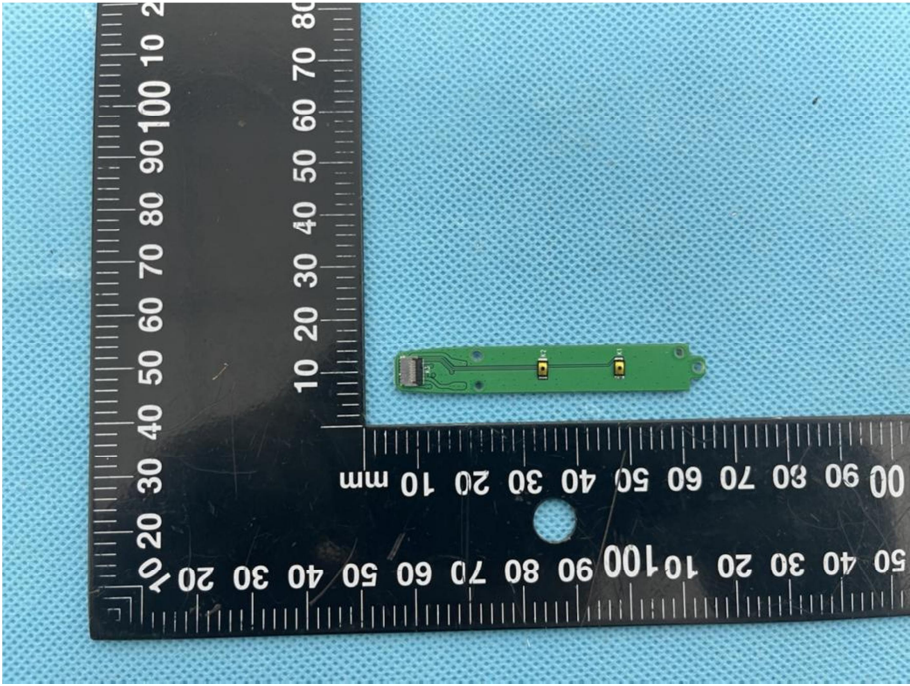

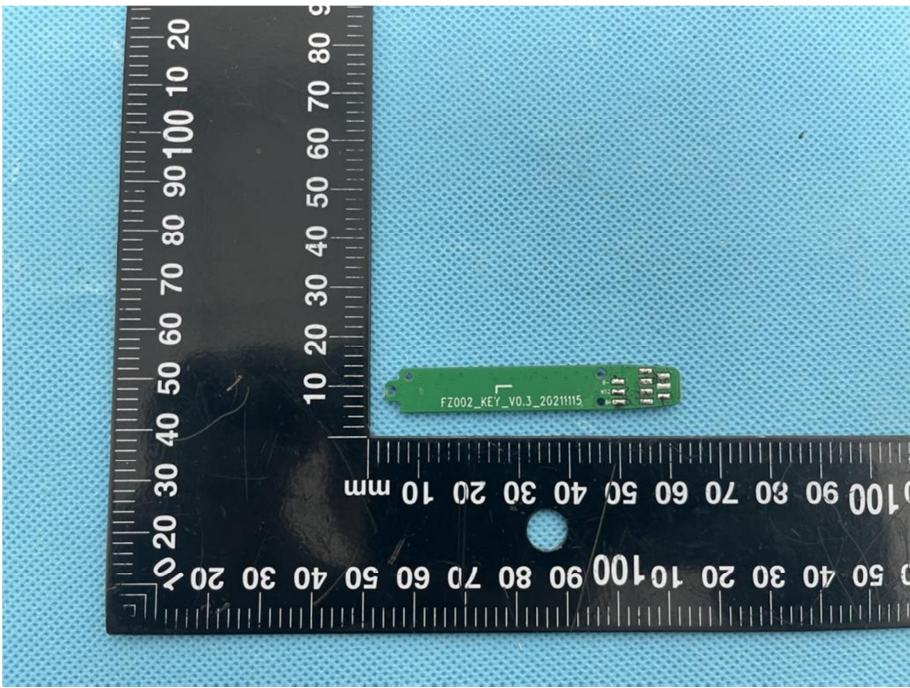

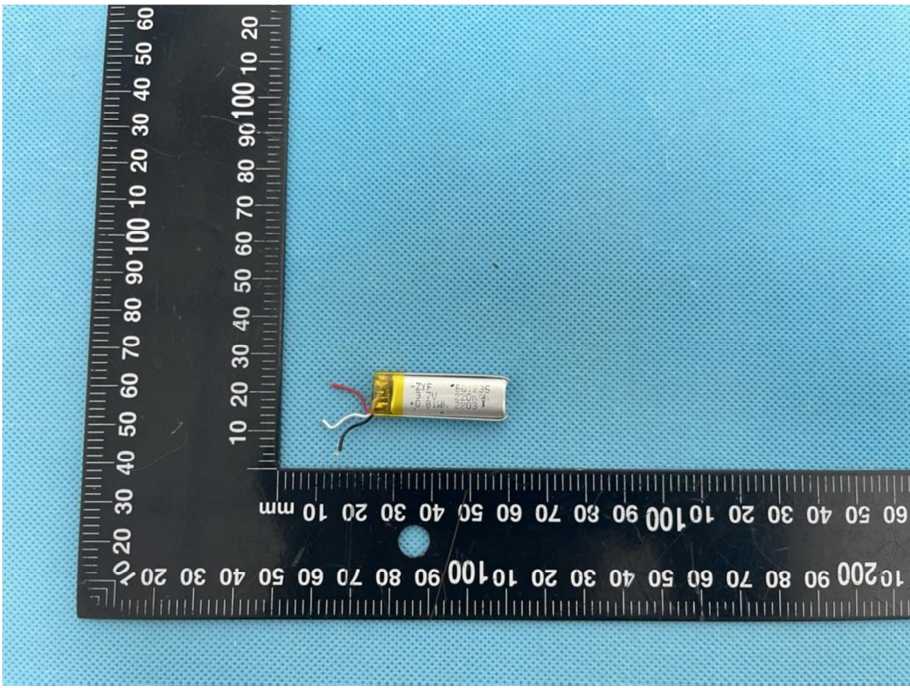

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

| | |
|---|--|
| <p>EUT Housing and Board View 1</p> |  A photograph showing the complete EUT assembly, including the black plastic housing, earbuds, and internal components, laid out on a blue surface next to a black L-shaped ruler for scale. The ruler shows measurements in millimeters and centimeters. |
| <p>Solder Board-Component View 1</p> |  A close-up photograph of the green solder board component, showing various electronic components and solder joints. It is placed on a blue surface next to a black L-shaped ruler for scale. |

| | |
|---|--|
| <p style="text-align: center;">Solder Board-Component View 2</p> |  <p>A photograph showing a small green printed circuit board (PCB) component. The component is rectangular and features a central circular component, likely a microchip or sensor, with several small surface-mount components. It is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters and centimeters. The component is oriented horizontally, with its longer side parallel to the ruler's horizontal edge.</p> |
| <p style="text-align: center;">Solder Board-Component View 3</p> |  <p>A photograph showing the same small green PCB component from a different perspective. The component is oriented horizontally, showing its top surface. It features a central circular component and several small surface-mount components. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters and centimeters. The component is oriented horizontally, with its longer side parallel to the ruler's horizontal edge.</p> |

| | |
|---|--|
| <p style="text-align: center;">Solder Board-Component View 4</p> |  A photograph showing a small green printed circuit board (PCB) component with gold-colored solder joints. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters, with the vertical scale on the left and the horizontal scale at the bottom. The component is oriented horizontally, and its length is approximately 100 mm. The text "FZ002_KEY_V0.3_20211115" is visible on the component. |
| <p style="text-align: center;">Solder Board-Component View 5</p> |  A photograph showing a small yellow and silver battery component with two wires (one red, one black) attached. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters, with the vertical scale on the left and the horizontal scale at the bottom. The component is oriented horizontally, and its length is approximately 100 mm. The text "3.7V 250mAh" is visible on the component. |
