Re: Confidentiality request for:

Product name: GFD200 with FCC ID 2A83C-BZQ6R

To Whom It May Concern:

This letter serves as an official request for permanent confidentiality under FCC Rule, 47 CFR Part 0, Subpart C (per §§ 0.457(d) and 0.459).

We have requested that the following attachments: Schematics, Block diagrams, Operational descriptions and Parts lists required to be submitted with this application are to be withheld from public review.

In addition, have requested that the following attachments: Internal photos (excepting those included in the Antenna Specification Declaration), User's manual, External photos and Test setup photos required to be submitted with this application is to be withheld from public review until short term confidentiality release date at: 180 days from the FCC certification grant date, or October 16th, 2023, whichever is later.

These documents contain detailed system and equipment description and related information about the product which Glowforge Inc. considers being proprietary, confidential and a custom design and otherwise would not release to the general public.

Since the design is a basis from which future technological products will evolve, Glowforge Inc. considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,

Nick Woolger, Principal Electrical Engineer

Glowforge Inc.
