

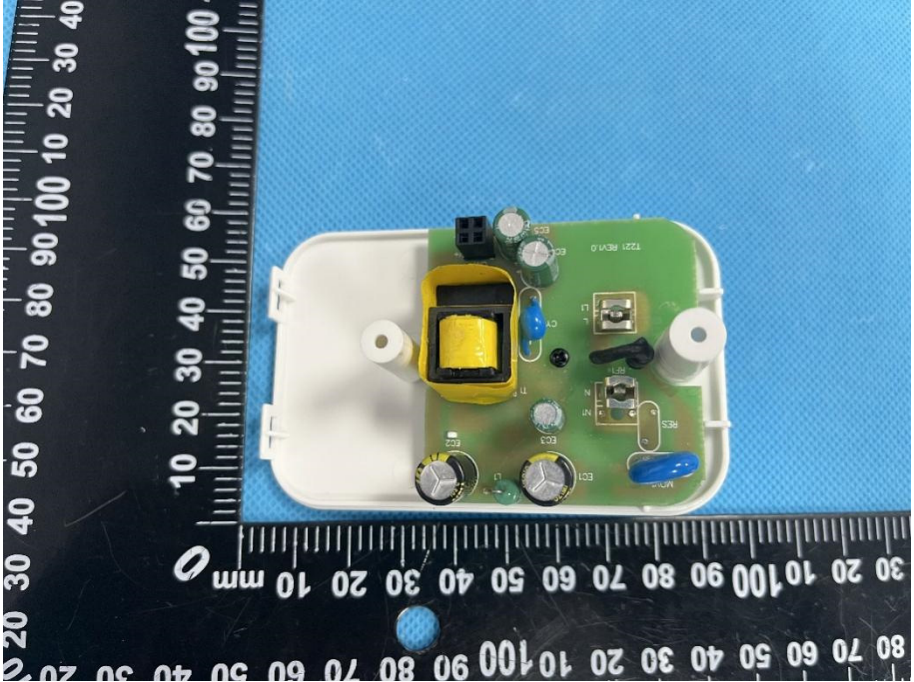

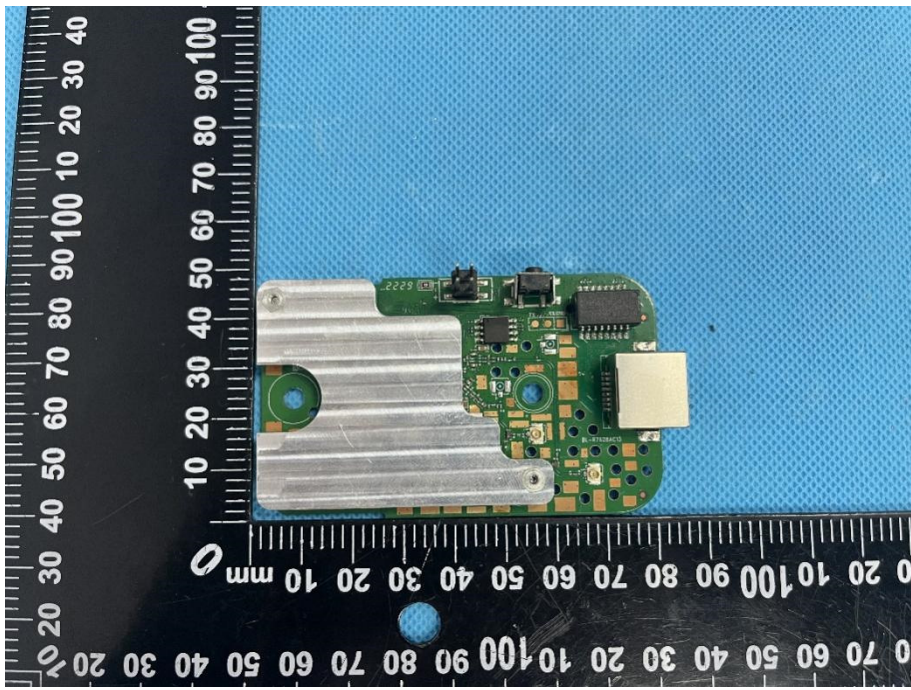

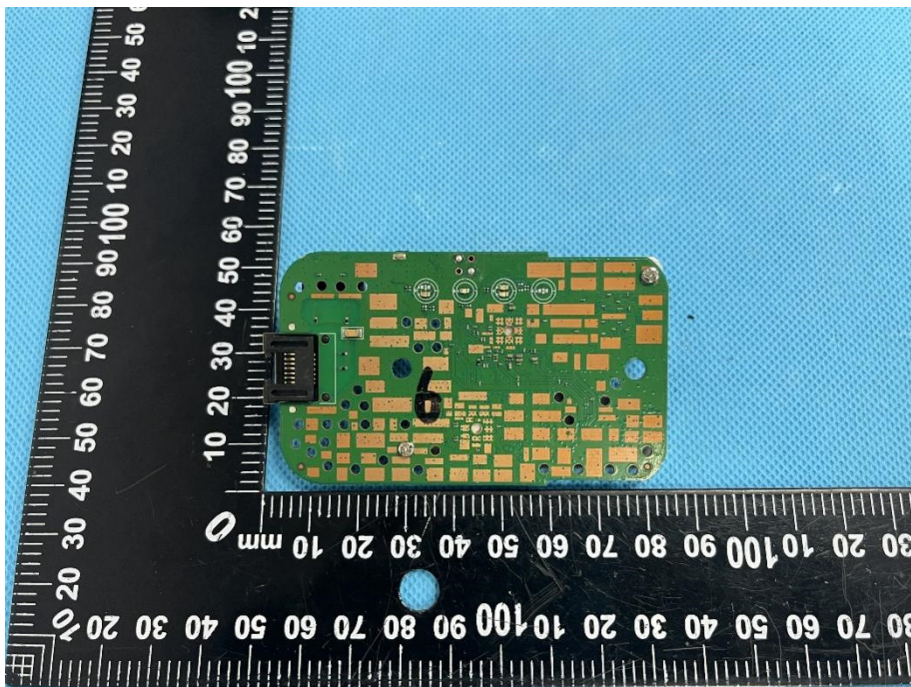

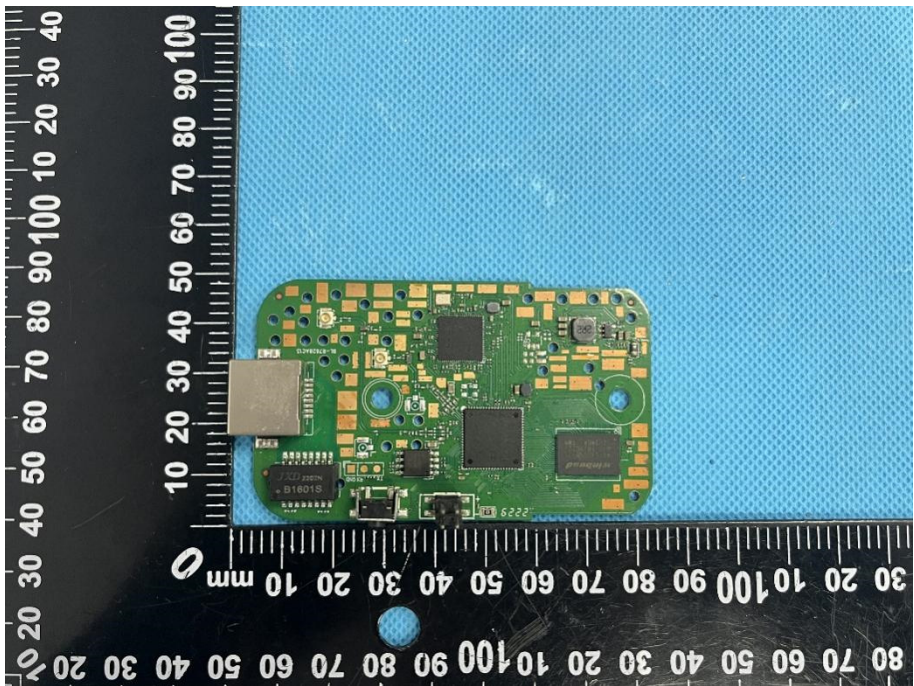

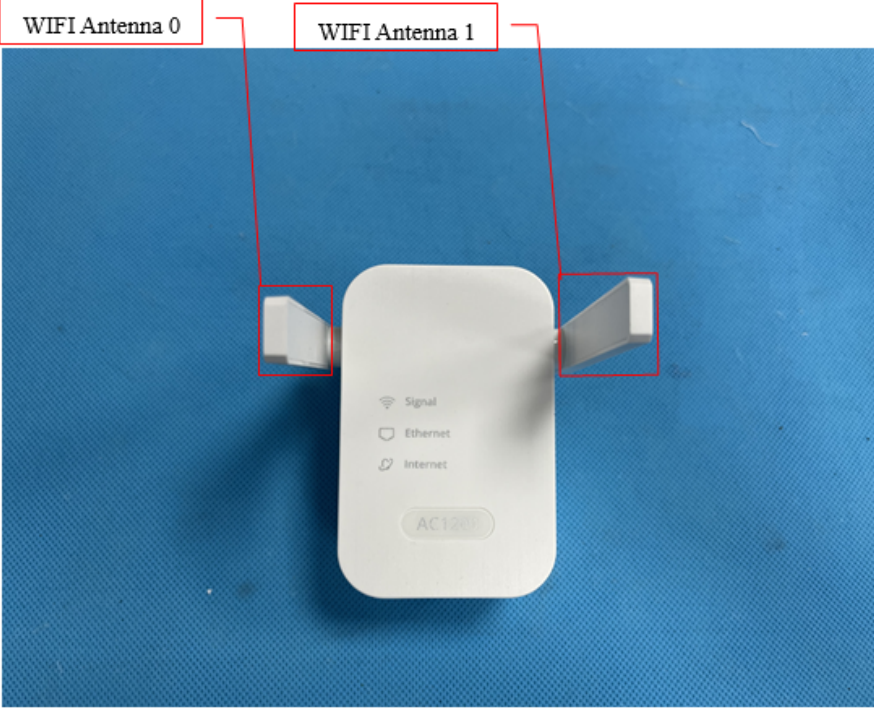

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	
<p>EUT Housing and Board View 2</p>	

<p>Solder Board-Component View 3</p>	 <p>A photograph showing the top view of a green printed circuit board (PCB) component. The board is rectangular with rounded corners and features a silver-colored metal heat sink on the left side. Various electronic components, including a black integrated circuit (IC) and several surface-mount components, are visible on the board. The component is placed on a blue textured surface next to a black ruler with white markings for scale. The ruler shows measurements in millimeters, with the component's length being approximately 100 mm and its width around 40 mm.</p>
<p>Solder Board-Component View 4</p>	 <p>A photograph showing the bottom view of the same green PCB component. The board is populated with numerous surface-mount components, including several integrated circuits and resistors. A black connector is visible on the left side. The component is placed on a blue textured surface next to a black ruler with white markings for scale. The ruler shows measurements in millimeters, with the component's length being approximately 100 mm and its width around 40 mm.</p>

<p>Solder Board-Component View 5</p>	 <p>A photograph of a green printed circuit board (PCB) component, likely a Wi-Fi module, placed on a blue textured surface. The component is surrounded by a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The component features several integrated circuits, including a large black chip with 'B10018' printed on it, and various smaller components like capacitors and resistors. A silver metal shield is attached to the left side of the board.</p>
<p>Antenna View</p>	 <p>A photograph of the white, rectangular device from a top-down perspective. Two small, white, rectangular antennas are attached to the top edge of the device. Red boxes highlight these antennas, with red lines pointing to labels 'WIFI Antenna 0' and 'WIFI Antenna 1'. The device has a front panel with three status indicators: 'Signal' (Wi-Fi icon), 'Ethernet' (Ethernet icon), and 'Internet' (Internet icon). Below these indicators is a small oval-shaped area with the text 'AC1200'. The device is set against a blue textured background.</p>
