

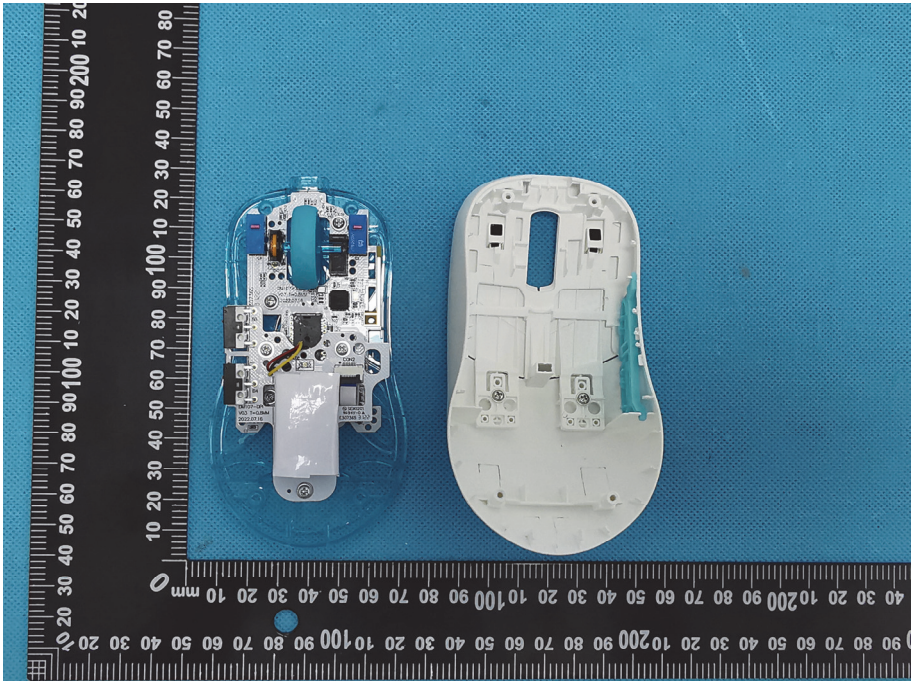

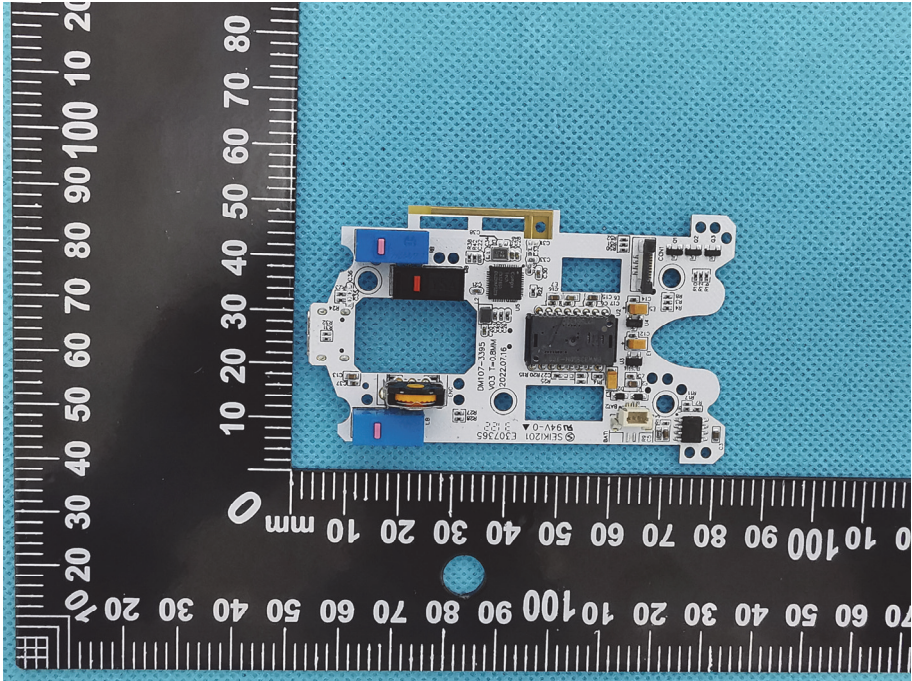

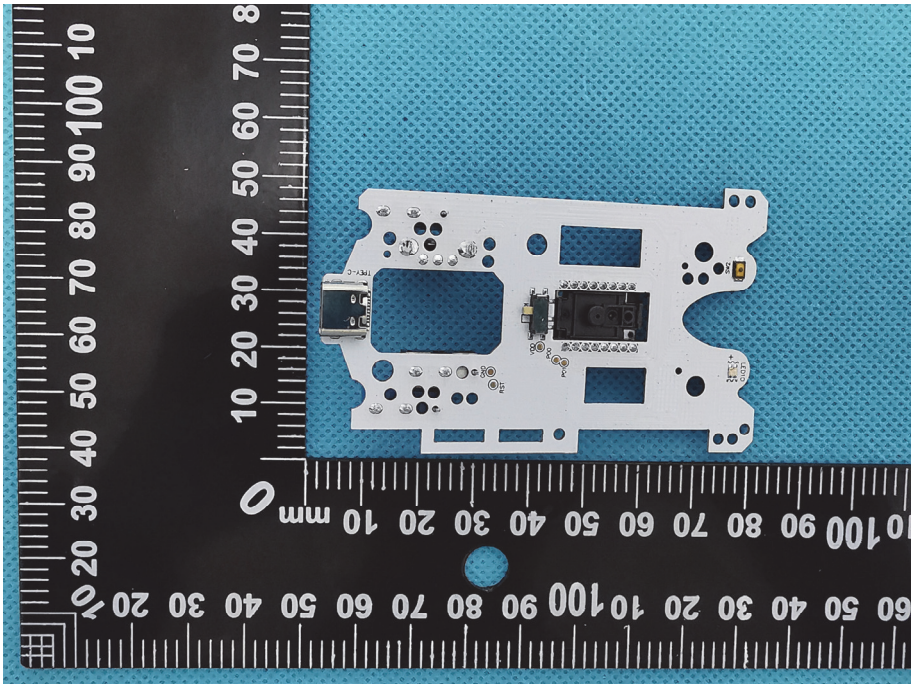

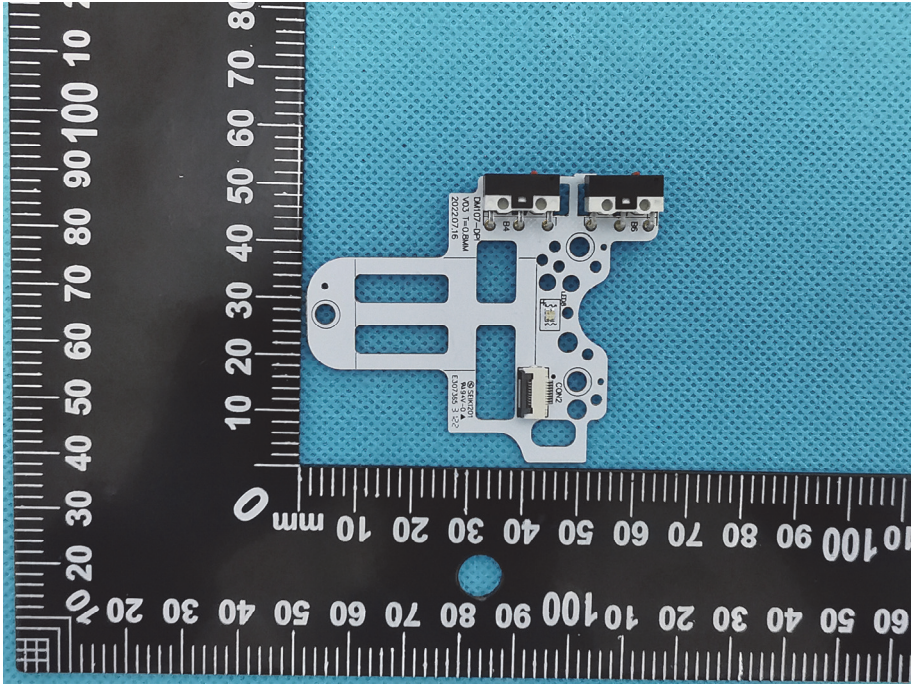

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the internal components of the EUT. On the left is the assembled unit with a clear plastic housing. On the right is the white plastic housing without the clear part. A black ruler with white markings is placed vertically to the left of the components for scale. The background is a blue textured surface.</p>
<p>Solder Board-Component View 1</p>	 <p>This is a close-up photograph of the printed circuit board (PCB) component. The board is populated with various electronic components, including a large black integrated circuit (IC), several capacitors, and other surface-mounted components. The board is held in place by blue solder tabs. A black ruler with white markings is placed vertically to the left of the board for scale. The background is a blue textured surface.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph of a white PCB component, labeled '2', mounted on a blue textured surface. The component features a central rectangular cutout and various electronic components, including a microcontroller and several surface-mount components. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters from 0 to 100.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph of a white PCB component, labeled '3', mounted on a blue textured surface. The component has a more complex shape with multiple cutouts and a central rectangular cutout. It features several electronic components, including a microcontroller and various connectors. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters from 0 to 100.
