### The first step is to install the APP:

Scan the QR code on the mobile phone WeChat or download the APP software directly on the mobile phone

"TUYA" to install the software, open the APP software and use this After registering the phone number, log in, and then proceed to the next step

### Step Two Power on reset:

### The third step is connected:

### Product parameters

Product Model	C50
Effective pixel	200MP
Video encoding	H.264 adaptive stream
Night vision function	IR-CUT automatic switching
Viewing angle	135°
Video storage	memory card/cloud storage
Storage medium	Micro SD Card
Support capacity	Maximum support 128G
Voice intercom	Two-way intercom
Recording mode	PIR event recording/continuous recording
Wake-up function	APP to wake up/PIR to wake up
WIFI mode	2.4GHz 802.11b/g/n
Power supply information	DC5V/1A
Power consumption	Standby 200uA, working 200mA
Battery capacity	built-in 5200mAh
Product size	length 10X width 5Xheight 5cm
Product weight	camera (about 170g)

Note: If the connection fails, please reset again and follow the third step to reconnect

## **FCC Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
