RE: Justification for label location regarding application for certification of

FCC ID: 2A8RW-JKGPAD

IC Number: 29448-JKGPAD

To Whom It May Concern:

This letter is to justify the choice of label location for the device bearing the above FCC ID and IC Number. The location was chosen to be bottom indent (1.5" x 0.5") of the device due to limited space available for the label placement. This device is small in size (2.5" x 1.1" x 1") and has very limited clear flat space for labelling. The only other flat space for labelling is under the arm clip fold. That location is not optimal since the label will be hidden whenever the arm clip is folded up.

Please contact the undersigned if you have any questions or need any further information.
