 <p style="text-align: center;"><b>H06</b> Neckband Earphones Use Instructions</p>	<p><b>About Earphones</b></p>  <p><b>Product Specifications</b></p> <table border="0"> <tr> <td>Version: V5.4</td> <td>Battery capacity: 280mAh</td> </tr> <tr> <td>Usage time: 30 hours</td> <td>Charging time: ~ 2 hours</td> </tr> <tr> <td>Distance: 10-20 meters (unobstructed line of sight)</td> <td>Charging power: 5V=150mA</td> </tr> <tr> <td>Driver: 14.2mm</td> <td>Working voltage: 3.4-4.2V</td> </tr> <tr> <td>Impedance: 32Ω</td> <td>Frequency: 20-2480GHZ</td> </tr> <tr> <td>Working environment: -10-60°C</td> <td>Working current: 5-15mA</td> </tr> <tr> <td>Standby time: about 300 hours</td> <td></td> </tr> </table> <p><b>Indicator Light Description</b></p> <p>Power on: Flashing blue three times          Pairing: Flashing red and blue alternately          Work Indicator off          Charging: Steady red          Shutdown: Flashing red three times          Fully charged: Light turned off</p>	Version: V5.4	Battery capacity: 280mAh	Usage time: 30 hours	Charging time: ~ 2 hours	Distance: 10-20 meters (unobstructed line of sight)	Charging power: 5V=150mA	Driver: 14.2mm	Working voltage: 3.4-4.2V	Impedance: 32Ω	Frequency: 20-2480GHZ	Working environment: -10-60°C	Working current: 5-15mA	Standby time: about 300 hours		<p><b>Pairing</b></p> <p>When the earphones are in pairing mode, the indicator light will flash blue and red alternately.</p> <p>2. Turn on the Bluetooth function on your device and find to connect to the Bluetooth settings screen and pairing. When connected, the indicator light will turn off.</p> <p>3. If this earphones is not connected to a device for 3 minutes, it will automatically shut down.</p> <p><b>Pairing to Another Device</b></p> <p>When it connects to a device, turn off the Bluetooth function of the device, you can connect H06 to another device according to above operation process. When connected, you can turn on the Bluetooth function of the first device again.</p> <p><b>Keys Operation</b></p> <p>Power on - Long press and hold the power button for 2 seconds          Shutdown - Press and hold the power button for 4 seconds          Answer a call - Click the power button when there is an incoming call          Hangup - Click the power button during the call          Play/Pause - Click the power button while listening to the song          Last/next song - Double-click the power button during its working          Reject a call - Long press the power button when there is an incoming call          Game mode - Triple click the power button after pairing          Calling for voice assistant - Long press and hold the power button for 2 seconds          Previous song - Long press the "+" key          Next song - Long press the "-" key          Reduce volume - Click the "-" key</p>	<p><b>Warning:</b></p> <p>Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p><b>NOTE:</b></p> <p>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p><b>FCC Statement:</b></p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> <li>—Reorient or relocate the receiving antenna.</li> <li>—Increase the separation between the equipment and receiver.</li> <li>—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.</li> <li>—Consult the dealer or an experienced radio/TV technician for help.</li> </ul>
Version: V5.4	Battery capacity: 280mAh																
Usage time: 30 hours	Charging time: ~ 2 hours																
Distance: 10-20 meters (unobstructed line of sight)	Charging power: 5V=150mA																
Driver: 14.2mm	Working voltage: 3.4-4.2V																
Impedance: 32Ω	Frequency: 20-2480GHZ																
Working environment: -10-60°C	Working current: 5-15mA																
Standby time: about 300 hours
