Male connector

Female connector

C → ① *Metal Lamp pole C*

B2

B1

② *2 Metal Lamp pole（B1/B2）*

A
③ *Lamp Base A*

LAMP ASSEMBLY

❶ Unpack all lamp parts and lay out with the base lying on steady surface. The LED corner floor lamp consist of six parts: 1* Electric Wire with Adapter, 4*Lamp Pole,1* Lamp Base.

❷ Please arrange the 4 lamp poles in order, the top of C is flat, and there is no distinction between B1 and B2.

❸ Insert the male connector of B to the female connector of A,then insert C in the same way

❹ Plug adapter into outlet and now the lamp is ready for use.

**01**

This section of the lamp is fixed to the base, please do not screw or pull out.

02

Connect two pin plugs correctly.

03
Make sure that the holes are on the same surface and aligned.

04

fix it with the screw

05

Optionally install the other two lamp poles in sequence.

06

After the installation is complete, connect to the power supply, the lights will be lit.

Note:

When removing the lamp, you can continue to gently shake the connection to pull out the lamp, do not pull it violently, which may damage the cable.

For best performance, please adjust the *Bluetooth RGBICW* floor lamp position, keep it at a proper distance from you and not affect your walking back and forth in the room.

OPERATION INSTRUCTION

Manual Operation Step

❶ Plug the AC adapter into a standard household 110VAC outlet.

❷ You can quickly control the light through the three buttons of the base.

Short touch to switch colors, 6 RGBICW color modes.

Note:
After the device adapter is connected to the power supply, it will auto-matically turn on and connect to the last mode used last time. Normal shutdown and the adapter will not start automatically when it is in a continuous power supply state.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
Caution: Any changes or modifications cations to this device not explicitly approved by manufacturer could void your authority to operate this equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
