To Whom It May Concern:

Subject: Application for Original Certification, FCC ID: 2A8UK-LEGREMP0

Dear Application Examiner,

BOSS Products, A Division of The Toro Company is submitting this application for original certification of model Remote, Legacy Sprayers (143-7589) under FCC Part 15.247, under FCC ID: 2A8UK-LEGREMP0.

The device is an accessory to a liquid de-icing sprayer used to apply liquid to melt snow and ice off of roadways and parking lots. The device communicates with the controls mounted to the sprayer via a 915MHz LoRa radio. The remote can be used as a stand-alone control of the de-icing sprayer or can be used in tandem with a Smartphone/Tablet Application. The device only operates on the 915MHz frequency at a 500 kHz bandwidth through firmware and cannot be changed by the user. The device houses a WiFi radio (FCC ID: 2AEMI-PHOTON) but this radio is unused and disabled through firmware and cannot be changed by the user.

Sincerely,

A handwritten signature in black ink, appearing to read "Derek Meyer".

Derek Meyer
