

Settings

Move to[Settings] icon, press [ok] button to enter into system settings. You will see the menu on the right

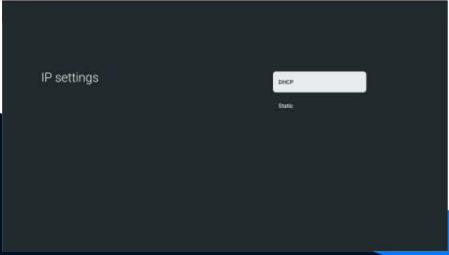

Wi-Fi

With Wi-Fi enabled, you'll need to select your network's name and enter the password. An on screen keyboard should appear if you're using the standard infrared remote control.

Ethernet

If you will use a network cable instead of Wi-Fi, please select this option [DHCP] instead.

User Guide

S5MAX

Preface

Thank you for choosing our Smart Media Player.  
For your convenience and ease of use, we created this manual.  
Please read it as a reference on how to properly use TV box.

FCC Statement  
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
—Reorient or relocate the receiving antenna.  
—Increase the separation between the equipment and receiver.  
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
—Consult the dealer or an experienced radio/TV technician for help.  
  
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.  
  
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
