## RAPID GUIDE

### 1- DC INPUT

To charge the GEARDON Solfeggio G10 karaoke machine, insert the socket of the battery charger included in the package here.

### 2- POWER SOCKET

Plug the battery charger into a power socket(100V-240V) and start the charging process. Check that the CHARGER indicator is red: it means the equipment is being charged. It takes about 4-5 hours to fully charge the system.

### 3- POWER ON/OFF

Press the switch to turn on (and then turn off) the equipment.

### 4- USB

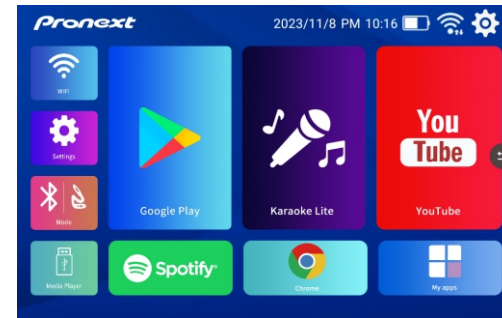

Insert a flash drive into the USB port, you can select files from the screen or from the control panel buttons.

### 5- VOLUME

Use the knobs to adjust volume, treble and bass, as desired.

### 6- LED

Turn on the switch to start the multicolour lights.

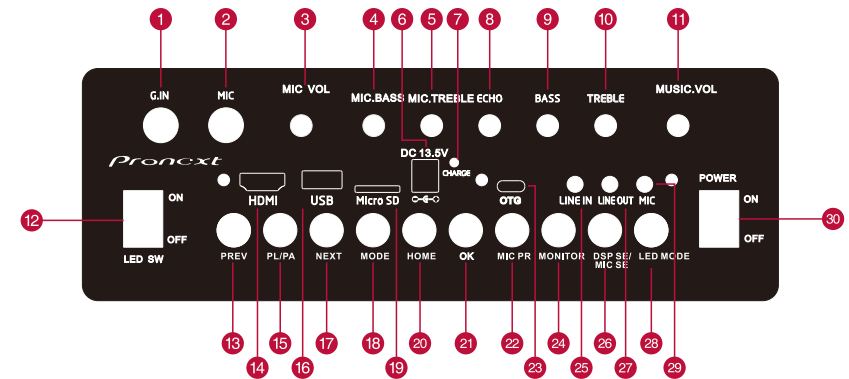

### HOME PAGE

Arpeggio P08 settings icon is displayed on the Homepage. Use the UP/DOWN/RIGHT/LEFT buttons on the remote control to choose the desired function on the HOME PAGE, then press OK, or directly touch the icon on the screen and follow the instructions. No Internet connection is needed for Bluetooth, AUX, USB Flash Drive and TF Card to work. A WI-FI/Internet connection is required to run YouTube, Google Play and any other apps in the "My Apps" section.

## Troubleshooting Guide

### 1.Machine is not turning on.

The battery is depleted. Be sure to charge the machine after each use.

### 2.Microphone is not turning on.

The Microphone battery is low or depleted. Recharge the batteries for the microphone.

### 3.Touch screen is not turning on.

Turn off the power and then turn it back on.

### 4.USB or TF mode is not working.

Ensure that the touch screen is set to the right mode by going to the Media Player app and pressing the icon for your selected input. Alternatively, try unplugging either the USB or TF from the machine and turning it off. Turn the machine back on, plug the USB or TF back in, enter the Media Player app on the touch screen, and press the icon for your selected input.

### 5.Machine powers on and then shuts down.

Please charge the machine.

### 6.No sound is playing from the speaker.

Ensure that the volume on the machine, remote, and your device (if applicable) are all turned to an audible level. Also check to see whether you are on MUTE by pressing **MONITOR** on the control panel.

### 7.Button or knob on the machine/remote control is not working properly.

Power off the machine and turn it back on.

### 8.The apps(Youtube,Spotify, Karaoke Lite,etc) cannot be used properly.

Sign in to Google Play, then update the your desired app to latest version, or contact our customer service.

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
