

FIT Wind, LLC d/b/a Alter
2825 E Cottonwood Parkway,
Suite 500
Salt Lake City, UT 84121

FCC FCC ID: 2A9F4-AIFS01

Your Alter Screen comes with two options for installation.

Scan this QR code for full setup instructions.

Option 1:

Free Standing with Alter Base Stand

Estimated Time To Completion:
Approximately 10-15 Minutes.

Your Alter Screen is attached to our unique Base Stand and connects to the wall for safety using our Safety Tether. Safety Tether anchoring requires up to two small wall holes.

For more details see instructions via the QR code above.

Option 2:

Wall Mounting

Estimated Time To Completion:
Approximately 45-60 Minutes.

Alter Screen is mounted flush to your wall (affixed to drywall, masonry, concrete and plaster) using the included Cleat mounting bracket and requires five small wall holes for secure installation.

For more details see instructions via the QR code above. (Professional Assistance Recommended).

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The frequency stability of all transmission frequencies of U-NII-1 and U-NII -3 meets the 47 CFR FCC Part15.407(g) requirements, and the manufacturer states that their transmissions remain within the U-NII-1 and U-NII -3 bands.

FCC RF Exposure Warning Statements:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.
