BOC062

WIRELESS SPEAKER

USER MANUAL

Product specifications:

- ◆ Model: BOC062
- ◆ Version:5.1
- ◆ Working distance:10M approx.
- ◆ SNR: 85dB
- ◆ Battery: 3.7V 1500mah
- ◆ Normal volume playing time: 7H
- ◆ Speaker driver: ϕ 52mm
- ◆ Power: 4 Ω /5W
- ◆ Frequency response:
150 HZ-20 KHZ
- ◆ Unit size:73*73*96mm
- ◆ Unit weight:285g
- ◆ Input power rating :5V = 1A

Product Feature:

- 1.International advanced wireless chip and circuit design techniques, support all wireless devices.
- 2.With Hi-Fi speaker, to make sure the clear and bright sound.
- 3.The wireless working distance is 10 meters, can connect all out wireless devices (cell phone/ Tablect PC/ TV) to play music.

WARRANTY STATEMENT:

All products are guaranteed to be free of defective materials and workmanship.

The warranty period for all equipment supplied from our company is 3 months of the purchase.

If you have any question, please contact with the Customer Service Representative for assistance.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
