Overview Of Headset

LED Indicator / Microphone

How To Use

User Manual

- Power on: Take out earbuds from charging case / long touch the MFB 3 seconds.
- Power off: Put earbuds into the charging case, turn off automatically / unconnected device, touch the MFB button for 5 seconds.
- Earphone pairing: the left and right earbuds are paired automatically, no need to operate automatic pairing.

Pairing

Single Earbud Connection

- 1. Take out one earbud from charging case.
- 2. Open mobile bluetooth, find pair name "ttec AirBeat Go", click and connect. (When the earbud and phone connect successfully, white light continuous flashing and you could also hear prompt tone "Connected".)

Double Earbuds Connection

- 1. When you take out two earbuds from charging case, earbuds will connect automatically. Master earbuds' green and white light will flash alternately and earbuds start to enter pairing status. (Now earbuds are in pairing and you could open phone or connect other Bluetooth devices.)
- 2. Open phone or other Bluetooth devices, search "ttec AirBeat Go", click it and connect. (when Bluetooth paired successfully, you will hear "connected")
- 3. **Re-connect automatically:** It will re-connect automatically to paired devices. (Premise is that devices' Bluetooth is on and earbuds paired record still exist.)

How To Use

Note:

- 1. These two earbuds already be paired before delivery. So when you get earbuds, it is unnecessary to pair two earbuds by yourself.
- 2. If the two ears cannot be automatically paired, put the left and right earphones in the charging compartment, and then take them out after closing the cover. The left and right ears will be automatically paired forcibly without other operations.
- 3. After the TWS is successfully paired, the R headset indicator flashes quickly, and the L headset performs the breathing light effect. Now you can connect to your mobile phone for use. (If the pairing is unsuccessful, please put the headset back into the charging compartment to reset and then take it out for operation).

Note:

When your earbuds connected phone and you find one earbuds no sound, you could turn off bluetooth on phone and put earbuds back to charging case. Then take them out again, these two earbuds will paired successfully within 10 seconds, and only white light continuously flashing. You could follow above 1 and 2 steps to connect your phone.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different

from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
