

Please read and keep all safety, security, and use instructions.

Setup Instructions, please visit <https://arcx.fit/pages/set-up>.

ArcX Technology hereby declares that this product is in compliance with the essential requirements and other relevant provisions of FCC, CE and UKCA health, safety and environmental protection standards.

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Clean only with a dry cloth.
6. Only use attachments/accessories specified by the manufacturer.

WARNINGS/CAUTIONS

- To avoid accidental ingestion, keep the ArcX smart ring away from children and pets. The ArcX smart ring contains a lithium-ion battery and may be hazardous if swallowed. If ingested, seek immediate medical attention. When not in use, store the ArcX smart ring in the case with the lid closed, and keep out of reach of small children and pets.
- Do NOT allow children to use the ArcX smart ring.
- When using this product, basic precautions should always be followed, including the following:
 - Read all the instructions before using the charging clip.
 - To reduce the risk of injury, close supervision is necessary when the charging clip is used near children.
 - Do not expose the charging clip to water, rain, liquids or snow.
 - Use of a power supply or charger not recommended or sold by power pack manufacturer may result in a risk of fire or injury to persons.
 - Do not use the charging clip in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury to persons.
 - Do not use a charging clip that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behaviour resulting in fire, explosion or risk of injury to persons.
 - Do not disassemble the charging clip. Take it to a qualified service person when service or repair is required. Incorrect re-assembly may result in risk of fire or injury to persons.
- Replacement of a battery with an incorrect type that can defeat a safeguard (for example in the case of some lithium battery types):
 - Disposal of a battery into a fire or a hot oven or mechanically crushing or cutting the battery that can result in an explosion.
 - Leaving the battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
 - A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas
- Use caution and follow applicable laws regarding mobile phone and headphone use if using the ArcX smart ring to answer phone calls while driving. Some jurisdictions impose specific limitations, such as single earpiece configuration, on the use of such control interfaces while driving. Do NOT use the ArcX smart ring for any other purpose while driving.

Do NOT use the ArcX smart ring to activate noise cancelling mode in headphones or earbuds when at any time the inability to hear surrounding sounds may present a danger to yourself or others, e.g., while riding a bicycle or walking in or near traffic, a construction site or railroad, etc., and follow applicable laws regarding headphone use.

- Do NOT use the ArcX smart ring with noise cancelling headphones or earbuds and ensure you can hear surrounding sounds, including alarms and warning signals.
- Do NOT submerge or expose the ArcX smart ring for extended periods to water beyond IP67 guidelines
- Remove ArcX smart ring immediately if you experience a warming sensation.

The ArcX Smart Ring contains small parts which may be a choking hazard. Not suitable for children under age 3.

This product contains magnetic material. Consult your physician on whether this might affect your

implantable medical device.

- Do NOT make unauthorized alterations to this product.
- Use this product only with an agency-approved power supply that meets local regulatory requirements (e.g., UL, CSA, VDE, CCC).
- The battery provided with this product may present a risk of fire or chemical burn if mishandled.
- Do not expose products containing batteries to excessive heat (e.g. from storage in direct sunlight, fire or the like).
- Wipe sweat and dust from the ArcX smart ring and the charging clip before charging.
- To avoid hazardous radiation exposure from the internal laser component, use the product only as specified in the instructions. The ArcX smart ring should not be adjusted or repaired by anyone except properly qualified service personnel.

NOTE: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by ArcX Technology could void the user's authority to operate this equipment.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device complies with CE and FCC radiation exposure limits set forth for general population. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ArcX Model No: AXSR01. FCC ID: 2A9LFAXSR01

Frequency band of operation 2402-2480MHz. Maximum transmit power less than -8.55 dBm EIRP. Maximum transmit power is below regulatory limits such that SAR testing is not necessary and exempt per applicable regulations.

This symbol means the product must not be discarded as household waste and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

Management Regulation for Low-power Radio-frequency Devices Article XII

According to "Management Regulation for Low-power Radio-frequency Devices" without permission granted by the NCC, any company, enterprise, or user is not allowed to change frequency, enhance transmitting power or alter original characteristic as well as performance to an approved low power radio-frequency devices. Article XIV The low power radio-frequency devices shall not influence aircraft security and interfere legal communications; If found, the user shall cease operating immediately until no interference is achieved. The said legal communications means radio communications operated in compliance with the Telecommunications Act. The low power radio-frequency devices must be susceptible with the interference from legal communications or ISM radio wave radiated devices. DON'T attempt to remove the rechargeable lithium-ion battery from this product. Contact your local ArcX

retailer or other qualified professional for removal. Please dispose of used batteries properly, following local regulations. Do not incinerate.

Security Information

This product is capable of receiving automatic security updates from ArcX. To receive automatic security updates, you must complete the product setup process in the ArcX Music app and connect the product to the Internet. If you do not complete the setup process, you will be responsible for installing security updates that ArcX makes available.
