

Heimdall Power

Attestation for reuse of module test results

5/23/2023

Nemko Canada Inc
303 River Road
Ottawa
K1V 1H2
Canada

ATTN.: Reviewing Engineer

Host FCC ID: 2A9LZ-HPNV4

Module FCC ID: VPYCMABZ

Heimdall Power will in the product Neuron V4, FCC ID 2A9LZ-HPNV4, only use the Murata CMWX1ZZABZ module, with FCC ID VPYCMABZ, in the configuration of the original filing. We therefore believe the test reports of the original filing accurately represent the test results in our application.

The only difference in our application is the antenna used, and the radiated emissions measurements have therefore been done in the new configuration by Nemko Kjeller.

Sincerely,

Signed:
