## **Package Contents**

2x Magnetic Wireless Charger

1 x User Manual

1 x Customer Service Card

### **How to Use**

1. Please use a qualified AC adapter to connect the USB power cord. The AC watt hour meter should be 9V/1.67A or above QC2.0, otherwise insufficient input current may lead to unstable charging.

2. When the power supply is connected, the wireless charging LED lights up continuously. When the wireless charger is working, the LED light will glow gradually.

3. When the charging problem occurs, the LED light will keep flashing and the wireless charging will automatically turn off.

### **Instructions**

A.To use the wireless charging feature, please make sure you the smartphone is Qi-enabled or has Qi-Compatiblecover(available separately).

B.Please note a quick charge power adapter is required for the fast wireless charging feature.

C.To use MagSafe charging, please make sure your smart phone is MagSafe enabled or has a MagSafe accessory(such as a magnetic protective case).

### **Attention**

A.To avoid product damage,please do not drop,knock or disassemble the charger or stand.

B.Please do not use or store the magnetic wireless charger in a hot or humid environment as doing so may damage internal circuitry.

C. Magnets may interfere with the magnetic charging of the product or cause product to malfunction;To avoid accidentally interfering with product functioning, please keep magnetic chip cards (e.g.ID cards,credit cards) or medical devices (e.g.pulse measuring device,hearing aid)at least 20cm away from the product.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause

undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
