### 3 CONNECT TO TV VIA eARC / ARC

**Step 1:**  
Connect one end of the HDMI cable to the eARC / ARC port on the back of your TV.

**Step 2:**  
Then connect the other end into the eARC port of the soundbar.

**Step 3:**  
Press "eARC" button on the remote control to select "eARC" input.

**Note:**

Your TV's HDMI port needs to support eARC to transmit the Dolby Atmos audio format to your Soundbar.

**Atmos:** If you are watching a movie in the Dolby Atmos format, please set the audio output on your TV to Pass Through:  
TV Settings > Home > Settings > Sound > Digital Audio Output > Pass Through

**DTS:** If you are watching a movie in the DTS format, please set the audio output on your TV to PCM:  
TV Settings > Home > Settings > Sound > Digital Audio Output > PCM

**What's the difference between: HDMI IN, HDMI ARC, HDMI eARC?**

- 1 **HDMI IN** is a standard HDMI input that allows you to connect devices to your TV or audio system. It supports audio and video signals, but it does not support audio return channel (ARC) or enhanced audio return channel (eARC) functionality.
- 2 **HDMI ARC** is a special HDMI port that supports two-way communication between your TV and audio system. This means that audio can be sent from your TV to your audio system, and audio system can send audio back to your TV.
- 3 **HDMI eARC** (Enhanced Audio Return Channel) is an updated version of HDMI ARC that supports higher quality audio formats such as Dolby Atmos and DTS:X.

**Note: Please turn on the "CEC" function on your TV.**

When eARC / ARC is connected, your TV remote control can control the soundbar and TV simultaneously:

- 1 Turn on / standby
- 2 Adjust the volume

### 4 CONNECT TO TV VIA OPTICAL / AUX

**OPTION 1: OPTICAL**

- 1 Make sure the TV's port is OPTICAL OUT, connect both sides of the cable to OPTICAL, for both the TV and the soundbar.
- 2 Make sure the optical plug is inserted correctly as it shows in the picture. Do not insert the plug upside down and break the optical.

**Note:** If audio is playing from the internal TV speakers, mute or minimize the TV volume.

**OPTION 2: AUX**

- 1 Connect the 3.5mm to RCA audio cable (Not included) to connect to your TV's RCA AUDIO OUT port.
- 2 Make sure the color of the cables ends matches the color of the TV ports.

**Note:** Please remember to unplug the AUX cable from TV and Soundbar when you want to switch other mode.

**In Optical Mode:** If there is no sound, try setting the TV audio output to PCM: TV Settings > Home > Settings > Sound > Digital Audio Output > PCM

## 5 CONNECT TO BLUETOOTH
