Technical Data Sheet

Type	Feature	Description or Details
BT	Version	5 .1
	Paring name	EMBT-01
	Operated distance	10M
	Transmission range	2402 -2480MHz
Speaker	Diameter	Ø40±0. 05mm
	Frequency Response	50HZ-5KHZ At15mW
	Impedance	32Ω±15%
	Sensitivity/S.P.L.	121 ± 3dB(At 1000Hz)
Battery	Rated Power	10mW
	Type	Rechargeable lithium battery
	Capacity	600mAh

Manufacturer: Shenzhen JiuHu Technology Co., LTD
Address of manufacturer :4 / F, Building E, BafangZhigu, Huanguan
South Road, Guanlan Street, Longhua District, Shenzhen

FCCID:2A9OY-EMBT-01
Made in china

FCC Warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user' s authority to operate the equipment.

6

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference , and (2) this device must accept any interference received , including interference that may cause undesired operation .

Note:This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
