# COBALT C-300 Labelling Details

FCC ID: 2A9RR-COBALT300
IC: 30007-COBALT300

Labelling location

All labels are located on the back panel and the left side panel of the unit. The FCC and IC labels will be positioned in the front of the left side panel. The Manufacturer's name and model variant is shown on the front panel.

Labelling style and fixing

Most labels on production units are screen printed in contrast ink. Labels for serial numbers and other detailed or updated information are attached as permanent self-adhesive stickers.
