

Для увеличения памяти вставьте карту MicroSD до 32 Гб

To increase memory insert a microSD card up to 32GB

لزيادة الذاكرة ، أدخل بطاقة microSD تصل سعتها إلى 32 جيجابايت.

برای افزایش حافظه ، کارت microSD را تا 32 گیگابایت وارد کنید.

Снимите батарею и установите одну или две SIM-карты

Remove the battery and insert one or two SIM cards

أخرج البطارية وأدخل بطاقة SIM واحدة أو اثنتين  
بطاري را برداشته و یک یا دو سیم کارت وارد کنید.

Подключайте наушники через разъем 3,5 mm jack

Connect your headphones using 3.5 mm jack

قم بتوصيل سماعات الرأس الخاصة بك باستخدام مقبس 3.5 ملم

هدفون خود را با استفاده از جک 3.5 میلی متری وصل کنید.

Заряжайте INOI и подключайте аксессуары через разъем Micro USB

Charge INOI and connect accessories via Micro USB connector

الشحن INOI وقم بتوصيل الملحقات عبر موصل Micro USB

INOI را شارژ کرده و لوازم جانبی را از طریق اتصال Micro USB متصل کنید.

Включите INOI нажатием кнопки «включения/выключения»

Turn on INOI by pressing the on / off button

قم بتشغيل INOI بالضغط على زر التشغيل / الإيقاف

با فشار دادن دکمه روشن / خاموش INOI را روشن کنید یا فشار دادن دکمه روشن / خاموش INOI را روشن کنید

Удерживайте , чтобы «включить/выключить» фонарик

Press and hold  switch to turn on / off the flashlight

اضغط مع الاستمرار على مفتاح  لتشغيل / إيقاف تشغيل المصباح اليدوي

برای روشن / خاموش کردن چراغ قوه، کلید  را فشار داده و نگه دارید

Потяните за выступ в правом нижнем углу для снятия крышки

Pull the ledge in the lower right corner to remove the cover

اسحب الحافة في الزاوية اليمنى السفلية لإزالة الغطاء.

تأچیه را در گوشه یائین سمت راست بکشید تا درپوش آن برداشته شود.

#### FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### Specific Absorption Rate (SAR) information:

This smart phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

#### FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: smart phone(FCC ID: 2A9SN-INOI106Z) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the head is 0.697W/kg and when properly worn on the body is 1.135W/kg. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

#### Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
