2.4G mode connecting

1. Turn on the headset.
2. Plug the USB dongle into your computer's USB port.
3. When the indicator light on USB dongle always on (not flashing) and the headset has been switched into 2.4G mode, that means 2.4G mode has been successfully connected.

Bluetooth Mode
To switch to Bluetooth mode, long press "M Button" for 3 seconds and wait for the headset to power on.
2. Open your Bluetooth device, search and connect to "Holosonic T1w" broadcasting ID, pair and connect accordingly.
3. When pairing, the indicator is flashing and is always on if successfully connected.
4. To disconnect, press check "Power Button".

Wired Mode
1. To use wired mode, use Type-C to 3.5mm Jack audio cable connect the headset and computer. No need pressing power button on the ear shell.
2. Note that when using the headset in 2.4G mode or Bluetooth mode, if you use the headset with the USB Type-C Charging Cable, the headset will automatically shut down and not able to power on.

Note
Check your sound/audio settings so that you have the "output" set to wireless audio.
Keep the distance between headset and dongle less than 10 meters.
When you use the headset in 2.4G mode or Bluetooth mode, if you use the headset with the USB Type-C Charging Cable, the headset will automatically shut down and not able to power on which you used before power off.

Microphone
The headset comes with detachable microphone. Just plug the microphone into 3.5mm Jack on headset to use microphone function.

Precautions

- Do not disassemble the product or attempt to fix it.
- Do not attempt to replace the battery inside.
- Do not crush, dipose of in fire, or expose the product to water or other liquids.
- Do not use the product in a high-temperature environment, including intense sunlight or heat.
- Avoid drops, vibrations, abrasions and impacts.
- If you find that the product is too hot, is emitting an odor, is deformed, or exhibits any signs of abnormal behavior, discontinue use immediately.

FCC Warning
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules, which limits the amount of radio frequency energy that it can emit. This device meets these limits and therefore will not cause harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not used in accordance with the instructions in this manual, may cause interference to radio communications.
If you are experiencing interference with your radio or television reception, which can be determined by turning the device off or on, you may wish to take one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the distance between the device and the receiver.
—Connect the device into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
