Peopl eLi nk Wi rel ess Speakerphone Seri es
Model : PPU-PVC-UVC-35B

Peopl eLi nk UVC35B Dongl e
Model : Peopl eLi nk UVC35B-D

1.Product PIC (Ref)

2. Operation

- a. Power on: Insert the USB dongle into the computer, it will power on automatically.
- b. Power off: Remove the USB dongle to power off.
- c. Connection: After power on, it will automatically enter into the connection state, and start searching for the previous paired devices. The white indicator blinks slowly.
- d. Pairing: Dongle unplugs and inserts the computer device for 3 times. It will enter into the pairing state and the indicator flashes quickly.

3. LED lights

Power On: The white light blinks slowly.

Power Off: The white light is off.

Pairing state: the white light flashes.

Connected: The white indicator is steady on.

4. 2.4G Pairing and connection

- a. For the first use, Plug the PeopleLink UVC35B dongle into the computer to power on and enter the pairing state (white light indicator flash slowly).
- b. Turn on the small speaker, and put it as close to PeopleLink UVC35B as possible and it will be automatically matched around 5S; If the PeopleLink UVC35B has already been matched, the conference speaker will automatically connect back to the PeopleLink UVC35B at each power on.
- c. When you play music or make a call on the PC, the meeting speaker can hear the music or make a call normally.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

- English:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF exposure statement:

The equipment complies with IC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.

- French:

Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes:

(1) Cet appareil ne doit pas causer d'interférences.

(2) Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.

Tout changement ou modification non expressément approuvé par la partie responsable de la conformité pourrait annuler l'autorité de l'utilisateur à utiliser l'équipement.

Déclaration d'exposition RF:

L'équipement est conforme à la limite d'exposition aux radiations de la IC établie pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 0 cm entre le radiateur et
