FCC RULES PART 15: The enclosed product (hardware) device complies with part 15 of the FCC Rules. Operation is subject to following two conditions: (1) this device may not cause harmful interference and (2) it must accept any interference received, including interference that may cause undesired operation.

FCC RADIATION EXPOSURE STATEMENT: This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be re-

located or operated in conjunction with any other antenna or transmitter.

MODIFICATION STATEMENT: This device has been designed to comply with the FCC Rules. Changes or modifications not expressly approved could void the user's authority to use the device.

FCC COMPLIANCE STATEMENT: This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection

against harmful interference in residential installations. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television equipment reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
