

What's in the box	<ul style="list-style-type: none"> • Bluetooth headphones • USB-C to USB charging cable • Quick start guide • Carrying Case 	EN
--------------------------	---	----

Button Functions

Power On Click and hold for 2 seconds. (One long blue flash.)

Pairing Mode When power is OFF, click and hold for 4 seconds. (A rapid blinking blue light indicates the headphone is in Pairing Mode. Go to your device's Bluetooth Settings to pair.)

Power Off Click and hold for 3 seconds. (One long red flash.)

**Note: to save battery life, your headphones will automatically turn off after 10 minutes.*

Charging

1. Locate the USB-C port and plug in the cable and connect the USB to a computer or wall charger.
2. It takes 2.5 hours to fully charge the earbuds. While charging, the indicator light is pulsing red and will turn off once charging is complete.

QUICK START GUIDE

Bluetooth Pairing for First Time

1. Press and hold the power button for 2 seconds. The blue light will flash once then switch to blinking blue. This indicates it's in Pairing Mode.
2. Make sure your device's bluetooth is turned ON.
3. Look for the headphones in your Bluetooth Settings and connect.
If a password is required, type in "0000".
4. The blue light will stop blinking once your headphones are connected.
5. If you want to connect to a new device, turn off the headphones to restart the process. Click and hold the power button for 4 seconds to turn OFF. Then turn ON and enter Pairing Mode again.

Moshi Bluetooth Audio App

Download our dedicated Moshi Bluetooth Audio App to use the added functions of your Moshi earphones. Search for "**Moshi Bluetooth Audio**" on the app store to download.

Our DJ4two feature lets you stream and share* the music you're listening to with a friend who also has a Moshi Bluetooth headset.

**Moshi Bluetooth Audio App required.*

Caution

IC

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

FCC

To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

FCC Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

This product is eligible for extended coverage through our **WarrantyPlus** program.

Every Moshi product is covered by a standard one-year warranty. Extend your warranty coverage to **three years** from date of purchase via product registration.

Scratch off the sticker on the back of this package to register and authenticate your genuine Moshi product here: moshi.com/register.
