FCC ID: 2AA98A
IC: 11505A-A

This is to state for our client's product "*Kombiinstrument 1*" with the above listed product identification a Class 1 Permissive Change was done at the same time as the original application.

Two new electrical configurations wer also developed in parallel:

Kombiinstrument 2
Kombiinstrument 3

These two different electrical configurations have the same external appearance but they have different internal appearance and different electrical layout. However, the EMC and RF performance of all thre electrical variants are the same, therefore the two other electrical variants are immediatly added under a Class 1 Permissive Change.

The details of the other two electrical variants are included in this application, for information.

If you have any questions, please feel free to contact me at the address shown below.

Yours sincerely,

A handwritten signature in black ink that reads 'Thomas Ring'.
