# **TEST REPORT**

## No. 2014RFW0074

## For

Client: VSN Technologies Inc. d/b/a VSN Mobil

**Production: WCDMA Digital Mobile Phone** 

**Brand Name: Nextel** 

Model Name: V.45

Model Number: V2002

**FCC ID: 2AA9WV2002** 

Hardware Version: V01

**Software Version: V01** 

Issued date: 2014-07-23

#### Note:

The test results in this test report relate only to the devices specified in this report. This report shall not be reproduced except in full without the written approval of ECIT Shanghai.

#### **Test Laboratory:**

ECIT Shanghai, East China Institute of Telecommunications

Add: 7-8F, G Area, No.668, Beijing East Road, Huangpu District, Shanghai, P. R. China

Tel: (+86)-021-63843300, E-Mail: welcome@ecit.org.cn

## 1. Test Laboratory

## 1.1. Testing Location

| Company Name: | ECIT Shanghai, East China Institute of Telecommunications   |  |
|---------------|---|--|
| Address:      | 7-8F, G Area, No. 668, Beijing East Road, Huangpu District, |  |
|               | Shanghai, P. R. China                                       |  |
| Postal Code:  | 200001  |  |
| Telephone:    | (+86)-021-63843300  |  |
| Fax:          | (+86)-021-63843301  |  |

## 1.2. Testing Environment

| Normal Temperature:  | <b>15-35℃</b> |
|----------------------|---------------|
| Extreme Temperature: | -20/+40℃      |
| Relative Humidity:   | 20-75%        |

### 1.3. Project data

| Project Leader:     | Wang Yaqiong |
|---------------------|--------------|
| Testing Start Date: | 2014-05-02   |
| Testing End Date:   | 2014-07-23   |

## 1.4. Signature

Wang Daming (Prepared this test report)

### 2. Client Information

## 2.1. Applicant Information

Company Name: VSN Technologies Inc. d/b/a VSN Mobile

Address: 1975 E. Sunrise Blvd. Suite 400, Fort Lauderdale FL

Contact Person: Amit Verma
Telephone: 954-609-4912

Postcode: 33304

#### 2.2. Manufacturer Information

Company Name: MOBIWIRE MOBILES (NINGBO) CO.,LTD

Address: No.999, Dacheng East Road, Fenghua City, Zhejiang

Contact Person: Xu Linzhong
Telephone: 0574 88916450

Postcode: 315500

East China Institute of Telecommunications Page TEL: +86 21 63843300 FAX: +86 21 63843301 Repo

Page Number : 6 of 55 Report Issued Date : July 23, 2014

Report No.: 2014RFW0074

## 3. Equipment Under Test (EUT) and Ancillary Equipment (AE)

Report No.: 2014RFW0074

### 3.1. About EUT

| EUT Description         | WCDMA Digital Mobile Phone |
|-------------------------|----------------------------|
| Brand name              | Nextel                     |
| Model name              | V.45                       |
| WLAN Frequency          | 2400MHz-2483.5MHz          |
| WLAN Channel            | Channel1-Channel11         |
| WLAN type of modulation | 802.11b:DSSS               |
|                         | 802.11g/n: OFDM            |
| Extreme Temperature     | -20/40°C                   |
| Nominal Voltage         | 3.9V                       |
| Extreme High Voltage    | 4.2V                       |
| Extreme Low Voltage     | 3.6V                       |

Note: Photographs of EUT are shown in ANNEX A of this test report.

### 3.2. Internal Identification of EUT used during the test

| EUT ID* | SN or IMEI      | HW Version | SW Version | Date of receipt |
|---------|-----------------|------------|------------|-----------------|
| N02     | 354044060000288 | V01        | V01        | 2014-05-<br>02  |

<sup>\*</sup>EUT ID: is used to identify the test sample in the lab internally.

### 3.3. Internal Identification of AE used during the test

| AE ID* | Description | SN |
|--------|-------------|----|
| AE1    | RF cable    |    |
| AE2    |             |    |

<sup>\*</sup>AE ID: is used to identify the test sample in the lab internally.

East China Institute of Telecommunications Page Number : 7 of 55

## 4. Reference Documents

## 4.1. Reference Documents for testing

The following documents listed in this section are referred for testing.

| Reference  | Title   | Version |
|------------|---|---------|
|            | FCC CFR 47, Part 15, Subpart C:                             |         |
|            | 15.205 Restricted bands of operation;                       |         |
| FCC Part15 | 15.209 Radiated emission limits, general requirements;      | 2014    |
|            | 15.247 Operation within the bands 902-928MHz,               |         |
|            | 2400-2483.5MHz, and 5725-5850MHz.                           |         |
|            | Guidance for Performing Compliance Measurements on D01v03r0 |         |
| KDB558074  | Digital Transmission Systems (DTS) Operating Under          | 1       |
|            | §15.247.  | I       |
| ANSI       | American National Standard for                              |         |
| C63.10     | Testing Unlicensed Wireless Devices 2009                    |         |

East China Institute of Telecommunications TEL: +86 21 63843300 FAX: +86 21 63843301 Page Number : 8 of 55 Report Issued Date : July 23, 2014

Report No.: 2014RFW0074

## 5. Summary of Test Results

A brief summary of the tests carried out is shown as following.

|                             | Cult alarvas of | Cula alaus |          |
|-----------------------------|-----------------|------------|----------|
| Measurement Items           | Sub-clause of   | Sub-claus  | Verdict  |
| I weather it is no          | Part15C         | e of IC    | Voralist |
| Maximum Peak Output Power   | 15.247(a)       | /          | Р        |
|                             |                 |            |          |

| AC Powerline Conducted      | 45 407 45 207   | ,          | В        |
| Emission                    | 15.107,15.207   | /          | Р        |

Please refer to part 5 for detail.

The measurements are according to Public notice ANSI C63.10 AND KDB558074.

Terms used in Verdict column

Note: all tests used a fully charged battery.

| Р  | Pass, the EUT complies with the essential requirements in the standard.        |
|----|--|
| NP | Not Perform, the test was not performed by ECIT.                               |
| NA | Not Applicable, the test was not applicable.                                   |
| F  | Fail, the EUT does not comply with the essential requirements in the standard. |

East China Institute of Telecommunications TEL: +86 21 63843300 FAX: +86 21 63843301 Page Number : 9 of 55 Report Issued Date : July 23, 2014

Report No.: 2014RFW0074

**Test Conditions** 

| Tnom | Normal temperature |
|------|--------------------|
| Tmin | Low Temperature    |
| Tmax | High Temperature   |
| Vnom | Normal Voltage     |
| Vmin | Low Voltage        |
| Vmax | High Voltage       |
| Hnom | Norm Humidity      |
| Anom | Norm Air Pressure  |

Report No.: 2014RFW0074

For this report, all the test case listed above are tested under Normal Temperature and Normal Voltage, and also under norm humidity, the specific conditions as following:

| Temperature  | Tnom | <b>22</b> ℃ |
|--------------|------|-------------|
| Voltage      | Vnom | 3.7V        |
| Humidity     | Hnom | 32%         |
| Air Pressure | Anom | 1010hPa     |

#### 5.1. Notes

All reported tests were carried out on a sample equipment to demonstrate limited compliance with section 3.

The test results of this test report relate exclusively to the item(s) tested as specified in section 5.

The following deviation from, additions to, or exclusions from the test specifications have been made. See section 3.

### 5.2. Statements

The product name Nextel V.45, supporting GSM/GPRS /WCDMA/HSDPA/HSUPA/HSPA+/BT/WLAN, manufactured by MOBIWIRE MOBILES (NINGBO) CO.,LTD is a new product for testing.

ECIT has verified that the compliance of the tested device specified in section 5 of this test report is successfully evaluated according to the procedure and test methods as defined in type certification requirement listed in section 5 of this test report.

East China Institute of Telecommunications Page Number : 10 of 55 TEL: +86 21 63843300 FAX: +86 21 63843301 Report Issued Date : July 23, 2014

### 6. Test result

#### 6.1. **Maximum Output Power**

#### **Measurement Limit and method:**

| Standard          | Limit(dBm) |
|-------------------|------------|
| FCC CRF 15.247(b) | < 30       |

Report No.: 2014RFW0074

The measurement is according to ANSI C63.10 AND KDB558074. EUT is operated in continuous transmitting mode.

#### **Measurement Uncertainty:**

### 6.1.1. Maximum Peak Output Power-conducted

#### Test procedures:

- 1. The output of EUT was connected to the spectrum analyzer by RF cable. The path loss was compensated to the results for each measurement.
- 2. Set to the maximum power setting and enable the EUT transmit continuously.
- 3. Make the measurement with the spectrum analyzer's resolution bandwidth (RBW)=20MHz. Set the video bandwidth (VBW) = 30MHz. In order to make an accurate measurement.
- 4. Measure and record the results in the test report.

#### **Measurement Results:**

#### 802.11b/g mode

| Mode    | Data       | Teat Result(dBm) |              |               |
|---------|------------|------------------|--------------|---------------|
|         | Rate(Mbps) | 2412MHz(Ch1)     | 2437MHz(Ch6) | 2462MHz(Ch11) |
|         | 1          | 13.73            | /            | 1             |

**Conclusion: PASS** 

### 6.2. Peak Power Spectral Density

#### **Measure Limit:**

| Standard               | Limit        |
|------------------------|--------------|
| FCC CFR Part 15.247(e) | < 8dBm/3 KHz |

The measurement is according to ANSI C63.10 AND KDB558074.

#### **Measurement Uncertainty:**

| Measurement Uncertainty | 0.75dB |
|-------------------------|--------|
|-------------------------|--------|

#### **Test procedures:**

- 1. The output of EUT was connected to the spectrum analyzer by RF cable. The path loss was compensated to the results for each measurement.
- 2. Set to the maximum power setting and enable the EUT transmit continuously.
- 3. Make the measurement with the spectrum analyzer's resolution bandwidth (RBW) = 3KHz. Set the video bandwidth (VBW) = 10KHz, SPAN > OBW. In order to make an accurate measurement.
- 4. Measure and record the results in the test report.

#### **Measreement Results:**

### 6.6. Transmitter Spurious Emission-Radiated

#### **Measurement Limit:**

| Standard                             | Limit                        |
|--------------------------------------|------------------------------|
| FCC 47 CFR Part 15.247,15.205,15.209 | 20dB below peak output power |

In addition, radiated emissions which fall in the restricted bands, as defined in 25.205(a), must also comply with the radiated emission limits specified in 15.209(a)(see 15.205(c)). The measurement is according to ANSI C63.4 and KDB558704.

East China Institute of Telecommunications TEL: +86 21 63843300 FAX: +86 21 63843301 Page Number : 39 of 55 Report Issued Date : July 23, 2014

#### Limit in restricted band:

| Frequency of emission(MHz) | Field strength(uV/m) | Field strength(dBuV/m) |
|----------------------------|----------------------|------------------------|
| 30~88                      | 100                  | 40                     |
| 88~216                     | 150                  | 43.5                   |
| 216~960                    | 200                  | 46                     |
| Above 960                  | 500                  | 54                     |

Report No.: 2014RFW0074

#### **Test condition:**

Portable, small, lightweight, or modular devices that may be handheld, worn on the body, or placed on a table during operation shall be positioned on a nonconducting platform, the top of which is 80 cm above the reference ground plane. The preferred area occupied by the EUT arrangement is 1 m by 1.5 m, but it may be larger or smaller to accommodate various sized EUTs. For testing purposes, ceiling- and wall-mounted devices also shall be positioned on a tabletop (see also ANSI C63.4-2009 section 6.3.4 and 6.3.5). In making any tests involving handheld, body-worn, or ceiling-mounted equipment, it is essential to recognize that the measured levels may be dependent on the orientation (attitude) of the three orthogonal axes of the EUT. Thus, exploratory tests as specified in 8.3.1 shall be carried out for various axes orientations to determine the attitude having maximum or near-maximum emission level.

The EUT was placed on a non-conductive table. The measurement antenna was placed at a distance of 3 meters from the EUT. During testing, the antenna height and the EUT azimuth were varied in order to identify the maximum level of emission from the EUT. This maximization process was repeated with the EUT positioned in each of its three rthogonal orientations.

| Frequency of emission (MHz) | RBW/VBW       | Sweep Times (s) |
|-----------------------------|---------------|-----------------|
| 30~1000                     | 100KHz/300KHz | 5               |
| 1000~4000                   | 1MHz/1MHz     | 15              |
| 4000~18000                  | 1MHz/1MHz     | 40              |
| 18000~26500                 | 1MHz/1MHz     | 20              |

#### **Conclusion: PASS**

#### Note:

A "reference path loss" is established and  $A_{Rpi}$  is the attenuation of "reference path loss", and including the gain of receive antenna, the gain of the preamplifier, the cable loss.  $P_{Mea}$  is the field strength recorded from the instrument.

The measurement results are obtained as described below:

Result=  $P_{Mea} + A_{Rpi} = P_{Mea} + Cable Loss$ .

## 7. Test Equipments and Ancillaries Used For Tests

The test equipments and ancillaries used are as follows.

### Conducted test system

| No. | Equipment                 | Model    | Serial<br>Number | Manufacture<br>r | Calibration Due date |
|-----|---------------------------|----------|------------------|------------------|----------------------|
| 1   | Vector Signal<br>Analyzer | FSQ26    | 101096           | R&S              | 2014-08-30           |
| 2   | DC Power<br>Supply        | ZUP60-14 | LOC-220Z00<br>6  | TDL-Lambda       | 2014-08-30           |

Report No.: 2014RFW0074

## **Anechoic chamber**

Fully anechoic chamber by Frankonia German.

Page Number : 52 of 55 Report Issued Date : July 23, 2014 East China Institute of Telecommunications TEL: +86 21 63843300 FAX: +86 21 63843301

## 8. Test Environment

**Shielding Room1** (6.0 meters×3.0 meters×2.7 meters) did not exceed following limits along the conducted RF performance testing:

Report No.: 2014RFW0074

| Temperature                  | Min. = 15 °C, Max. = 30 °C                 |
|------------------------------|--|
| Relative humidity            | Min. = 30 %, Max. = 60 %                   |
| Shielding effectiveness      | > 110 dB                                   |
| Ground system resistance     | < 0.5 Ω                                    |
| Uniformity of field strength | Between 0 and 6 dB, from 80MHz to 3000 MHz |

Control room did not exceed following limits along the EMC testing:

| Temperature              | Min. = 15 °C, Max. = 35 °C |
|--------------------------|----------------------------|
| Relative humidity        | Min. =30 %, Max. = 60 %    |
| Shielding effectiveness  | > 110 dB                   |
| Electrical insulation    | > 10 kΩ                    |
| Ground system resistance | < 0.5 Ω                    |

**Fully-anechoic chamber1** (6.8 meters×3.08 meters×3.53 meters) did not exceed following limits along the EMC testing:

| Temperature                  | Min. = 15 $^{\circ}$ C, Max. = 30 $^{\circ}$ C |
|------------------------------|--|
| Relative humidity            | Min. = 30 %, Max. = 60 %                       |
| Shielding effectiveness      | > 110 dB                                       |
| Electrical insulation        | > 10 kΩ  |
| Ground system resistance     | < 0.5 Ω  |
| Uniformity of field strength | Between 0 and 6 dB, from 80MHz to 3000 MHz     |

**Fully-anechoic chamber2** (Tapered Section: 8.75 meters×3.66 meters×3.66 meters, Rectangular Section: 7.32 meters×3.97 meters×3.66 meters) did not exceed following limits along the EMC testing:

| Temperature       | Min. = 15 $^{\circ}$ C, Max. = 30 $^{\circ}$ C |
|-------------------|--|
| Relative humidity | Min. = 35 %, Max. = 60 %                       |
