FCC Confidentiality Request

Federal Communications Commission,
Authorization & Evaluation Division,
7435 Oakland Mills Road,
Columbia, MD 21046

Date: APR 8, 2014

Re: VSN Technologies Inc.
FCC ID: 2AA9WV3001

To whom it may concern:

This letter is to comply with 47 CFR 0.457 and 0.459 pertaining to confidentiality material. VSN Technologies Inc. requests that the following documents regarding this submission for FCC ID: 2AA9WV3001 to be kept confidential:

Exhibit Type	File Name
Block Diagram	Block Diagram.pdf
Schematics	Schematics.pdf
Operational Description	Operational Description.pdf
Tune up procedure	Tune up procedure.pdf
BOM	BOM.pdf

Those documents contain detailed system and equipment description and related information about the product which 2AA9WV3001 considers to be confidential proprietary, a custom design and, otherwise, not releasable to the general public. Since this design is a basis form which future technological products will evolve, 2AA9WV3001 considers this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Thank you for your attention in this matter.

Yours sincerely,

Company Officer: Amit Verma
Title and Department: Director of Test Engineering
