RE: CONFIDENTIALITY REQUEST FOR NG1 & FCCID: 2AAA2-NX1C

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the Schematic, Block Diagram, Operational Descriptions, and Parts List/Tune-up Info required to be submitted with this application be permanently withheld from public review.

The reason for the request is that the above documents contain information about our products and if they were released on the FCC website our competitors could quickly reverse engineer them and steal our company IP.

Please contact me if there is any information you may need.

Sincerely,

Augustus Engstrom
