What is...

OpenHour Gecko

Open Hour Gecko is a 4K Android Player with optimized KODI 15 that supports HD Audio Passthrough, Framerate Sync, 3D BDISO, 4K H.264 / H.265 and SAMBA / NFS.

HD Audio Passthrough

DTS-MA, Dolby True HD HDMI Bitstream

Open Hour Gecko embraces sounds that matches the clear and vivid images of high-definition video.

Framerate Sync

Open Hour Gecko automatically changes HDMI Output to sync with video framerate

SAMBA / NFS

Stream content over SAMBA and NFS from Network-Attached Storage (NAS)

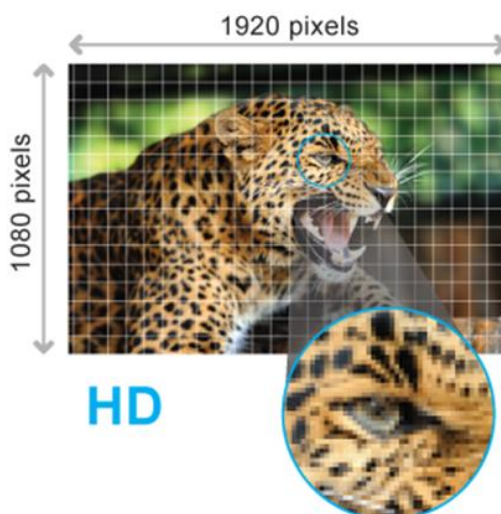

3D BDISO

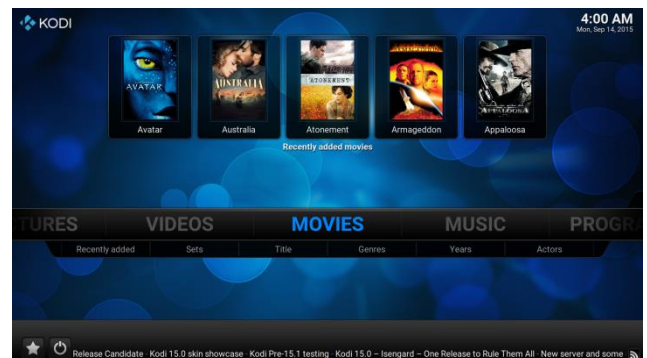

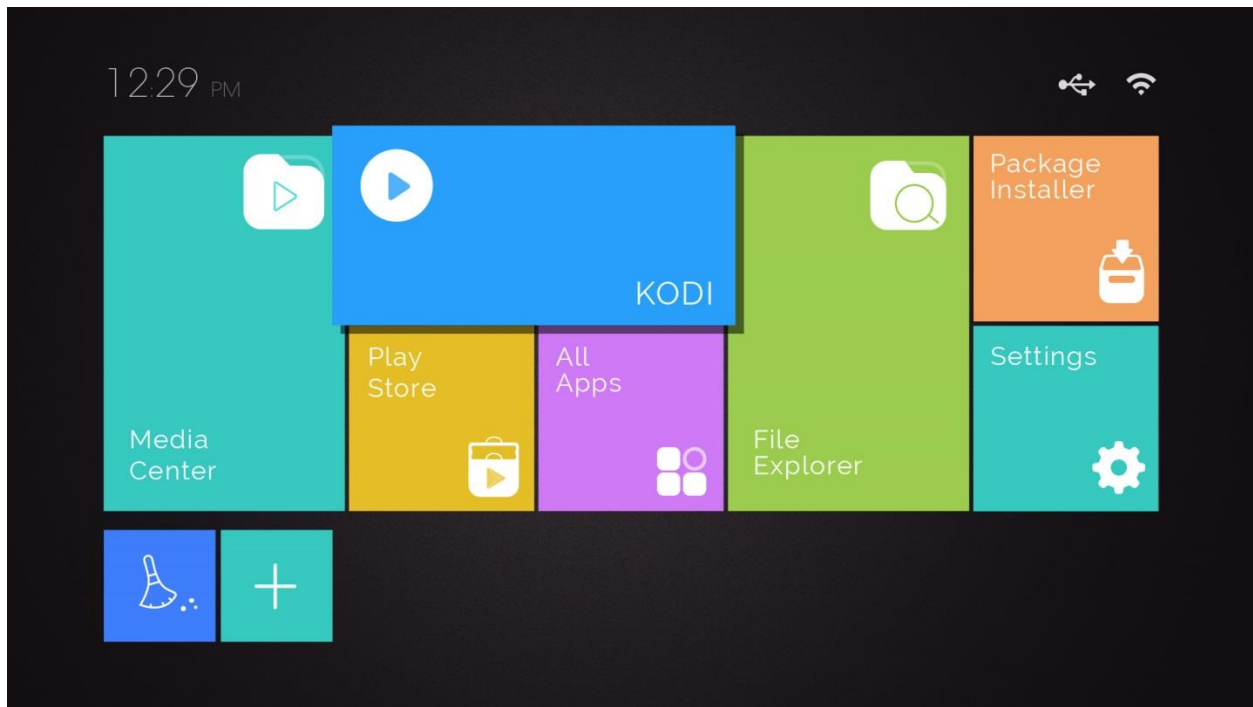

Watch your remarkable favorite show with remarkable picture quality in 3D

4K H.264 / 265

More detail, more sharpness, better image depth and better color handling! Watch 'real life' where films come alive with sounds as lifelike as the picture.

ONE CLICK to install KODI that is optimized for GECKO!

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter
