A photograph of a Longsys 28128E04F 0140 USB flash drive. The device is shown from the back, revealing its internal components. The main component is a black integrated circuit (IC) with the Longsys logo and the model number 28128E04F 0140 printed on it. Other components visible include a smaller IC with the Micron logo, various capacitors, and a USB connector. The device is placed on a blue textured surface.
