Welcome

Welcome to your new BABOLAT Play products, designed to measure your tennis game, empower you to improve and give you the opportunity to share or compare your performance with the BABOLAT Play community and your friends. Included in your system is a racquet with embedded sensing technology that works with BABOLAT Play mobile Apps (ios or Android).

The BABOLAT Play App measures your level of power, endurance and technique. You will have a perfect overview of your tennis level. The BABOLAT Play App measures performance and then let you share compare and compete with friends and the entire BABOLAT Play Community.

System Requirements

To use your BABOLAT Play products, you must have:

- A Macintosh or PC with built-in USB; Mac OS X v10.5.8 or later, Windows 7, Windows Vista (SP2) or Windows XP (SP3).

- Internet access (Broadband recommended; fees may apply).

Web browser: Internet Explorer 8+, Firefox 12+, Safari 5+, Chrome 18+

- An iPhone 4 or 4S, 5 generation running iOS 6 and above.

- An Android Phone 3.2 and above (HTC, LG, Samsung Galaxy, Motorola).

For a complete list of compatible devices, visit: www.babolatplay.com/setup.

Included in the box

WHAT'S INCLUDED IN THE BABOLAT PLAY PACK

1. BABOLAT Play Pure Drive includes sensor embedded within the handle of the racquet to measure power, technique and endurance. BABOLAT Play sensors measure motion and sync wirelessly to mobile device.
2. BABOLAT Play USB cable to charge battery
3. BABOLAT Play cover to protect and travel with your new connected racquet

Included in the Box

First, get to know what's in the box. We will introduce you to each component of the BABOLAT Play system and what it does.

Getting Started

Set Up

To get started, open an internet browser on your computer and go to www.babolatplay.com/setup.

There you'll find resources such as a link to the latest version of BABOLAT Connect software, a list of compatible devices and video tutorials demonstrating the following setup steps.

1. Download and install BABOLAT Connect.

The BABOLAT Connect software allows your BABOLAT Play Pure Drive racquet and computer to communicate with each other.

2. Update your connected racquet

Plug into USB port of computer. This will launch the Connect utility. Each time you connect your BABOLAT Play racquet to that computer, Connect software will automatically launch and check for new firmware (updates for your BABOLAT Play Sensors). When new updates are available, a message in BABOLAT Connect will prompt you to accept the update. When prompted, accept the update. If you do not accept the update, BABOLAT Connect will ask you again next time you plug your connected racquet into your computer.

If you already have BABOLAT Connect installed on your computer, you still need to update it with the latest version.

Overview

Button	Push	Light	Function
	long (1 sec)	blue	on / off
	short	red	tag session ex.: 1 st set, 2 nd set, etc.
	long (2 sec)	purple	Bluetooth on / off

Light		Signification
-	-	product off

Warranty

One - Year Limited Warranty

BABOLAT electronics warranty includes sensors and adapters.

Your product is warranted by BABOLAT to be free of defects in materials or workmanship, under normal use, for a period of one year from the date of purchase. This limited warranty excludes damage resulting from improper care of handling, accidents, modification, unauthorized repairs, normal wear or other causes which are not defects in materials or workmanship. If your product is defective, return it and the store receipt to the place of purchase.

If there is a covered defect, we will repair or replace the product free of charge or issue a refund at our discretion. The product is provided “AS IS AND WITH ALL FAULTS”, and BABOLAT hereby disclaims all other warranties, conditions and the provision of or failure to provide support or other services, information, software, and related content through the product or otherwise arising out of the use of the product.

This limited warranty is in place of all other express and implied warranties of any kind, which are hereby excluded. In no event shall BABOLAT be liable for direct, indirect, incidental or consequential damages arising out of the use of the product, and any recovery is limited to the purchase price. No other person or company is authorized to change this limited warranty, and your dealer is solely responsible for any other additional warranties. Some states and countries do not allow limitation on how long an implied warranty lasts, or exclusion of all or certain types of damages, so the above limitations may not apply to you. This warranty gives you specific legal rights, and you may also have other additional rights, which vary from countries. The foregoing is without prejudice to other legal rights that may arise under applicable national legislation. The warranty extends only to products purchased from an authorized BABOLAT retailer.

This warranty does not apply to consumable parts, such as batteries, unless damage has occurred due to a defect in materials or workmanship.

Compliance Information

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications made to this equipment not expressly approved by BABOLAT may void the FCC authorization to operate this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
