

Request for Class Permissive Change

Date: 18/04/2024

Federal Communications Commission

Equipment Authorization Branch
7435 Oakland Mills Rd.
Columbia MD 21046

FCC ID: 2AAGMGM02SA

To whom it may concern:

We,

Sequans Communications
15-55 Boulevard Charles de Gaulle 92700 Colombes
France

hereby request a Class II Permissive Change for the Product approved under the above mentioned FCC ID pursuant to Part 2.1043, of Title 47 of the Code of Federal Regulations.

Our LTE Cat M1 modules GM02S / GM02SP were approved under FCC ID 2AAGMGM02SA back in 2021 for frequency bands B25(2), B66(4), B26(5), B12(17) and B13.

We later filed a Class 2 Permissive Change in August 2022 to include Narrowband IoT mode in the same frequency bands.

We want to apply a new Class 2 Permissive Change filing to the last PCB grant of equipment for PCB equipment class, dated August 12th 2022.

The change made now to the currently certified equipment is to add LTE Cat-M1 mode in 3GPP band 106 (896 – 901 MHz)

This is enabled by SW and without hardware modifications.

No changes are made to transmit power output, modulation or frequency.

Sincerely

By: Sunpreet Kaur
