Use Your Smartwatch

Qualcomm® Toq™ smartwatch

Before using your smartwatch, be sure:

- Your smartwatch is fully charged.
- Your Android™ phone has the Qualcomm Toq App installed.
- Your smartwatch and phone are paired.

See the **Get Started** guide provided in the box for details.

This guide will walk you through basic use of your Qualcomm Toq smartwatch.

▶ Also check out helpful setup videos at **Toq.Qualcomm.com/support**.

STEP 1
Tap Home/Lock Touch Sensor

- On the strap below screen, lightly tap the **Home/Lock touch sensor** as shown to browse applets and lock the touch screen (and view clock faces).

- Tap again to unlock the touch screen.

STEP 2
Use Clock Face Slider

- Tap the **Home/Lock touch sensor** until you see a clock face.

- On the **Clock Face slider**, just below the design strip on the watch face (see illustration), slide left and right to browse clock faces.

STEP 3
Browse Applets

- Tap the **Home/Lock touch sensor** to activate the **touch screen** area of the watch face. Browse by scrolling up and down on the touch screen.

- Tap an applet to open it. Swipe left to right to go back.

Touch screen

STEP 4
### Double-Tap Light Touch Sensor

- On the strap above the screen, lightly double-tap the **Light touch sensor** to toggle the front light on/off.

STEP 5
Personalize Applets

- In the Toq App on your Android phone, add weather and stock price information for your favorite locations and stocks.
