

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

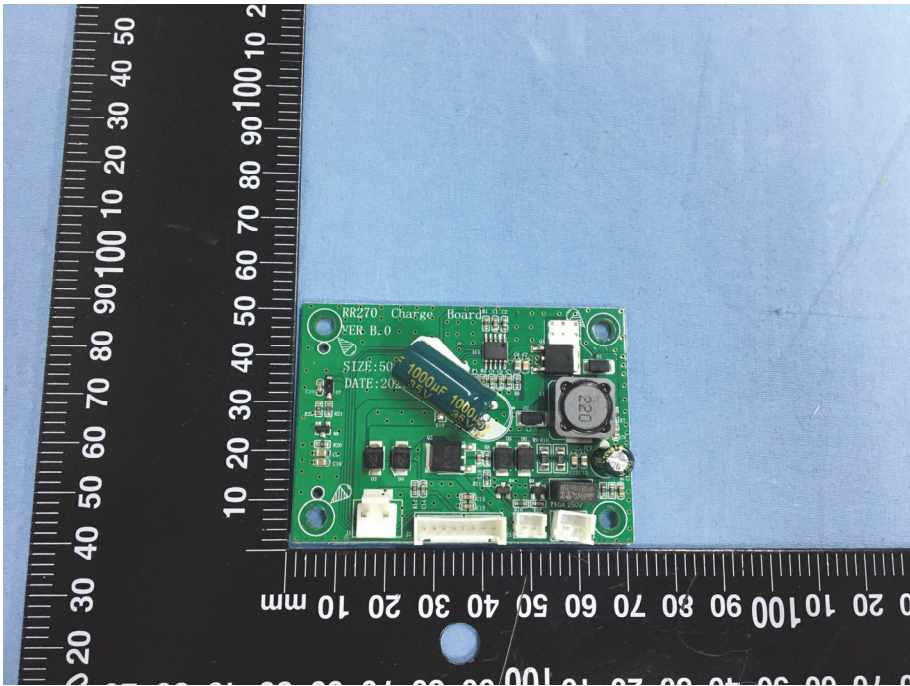

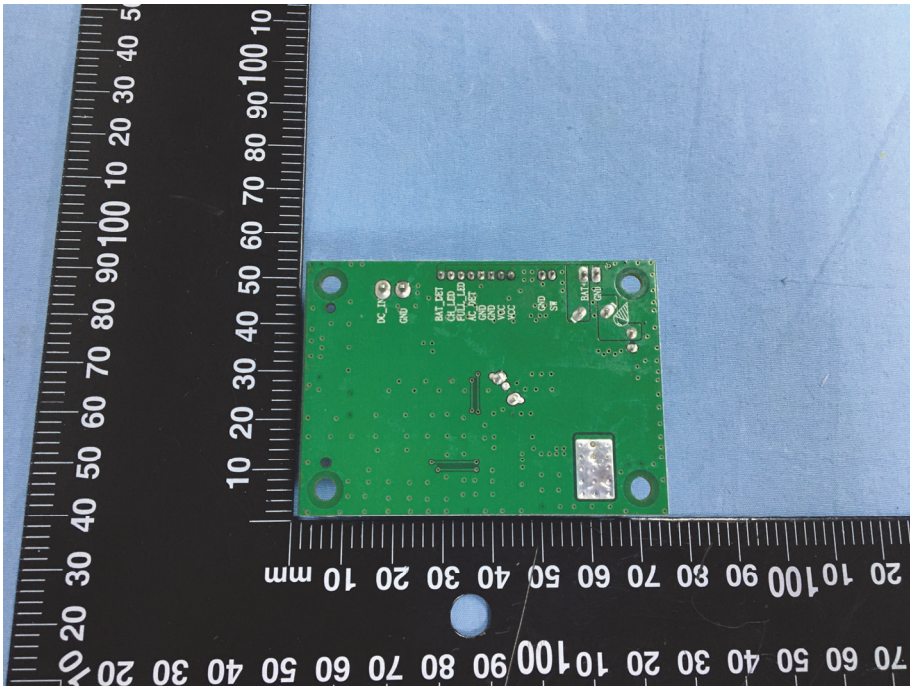

---

**EUT Housing and Board  
View 1**

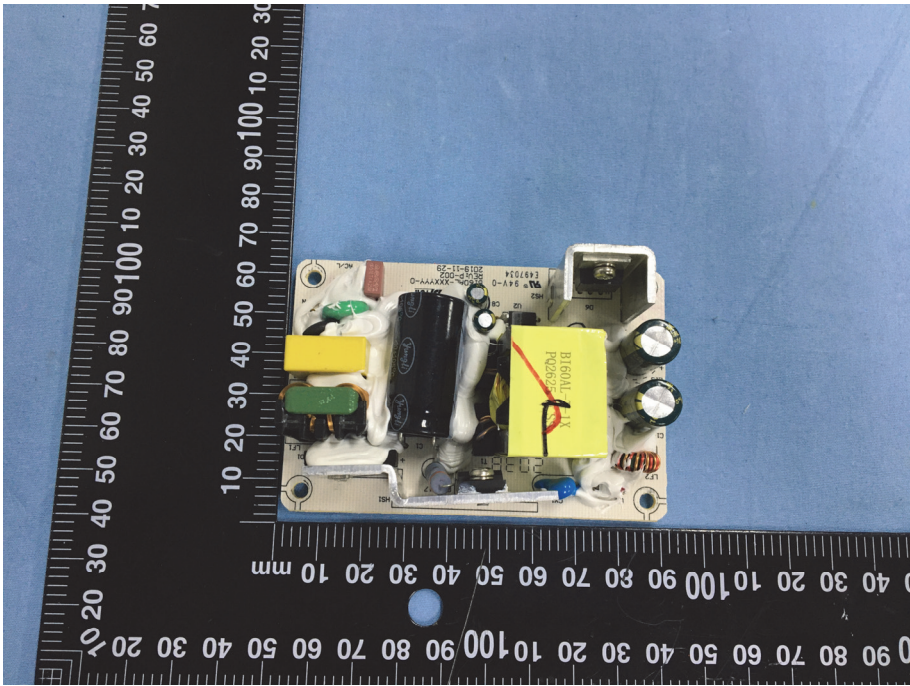

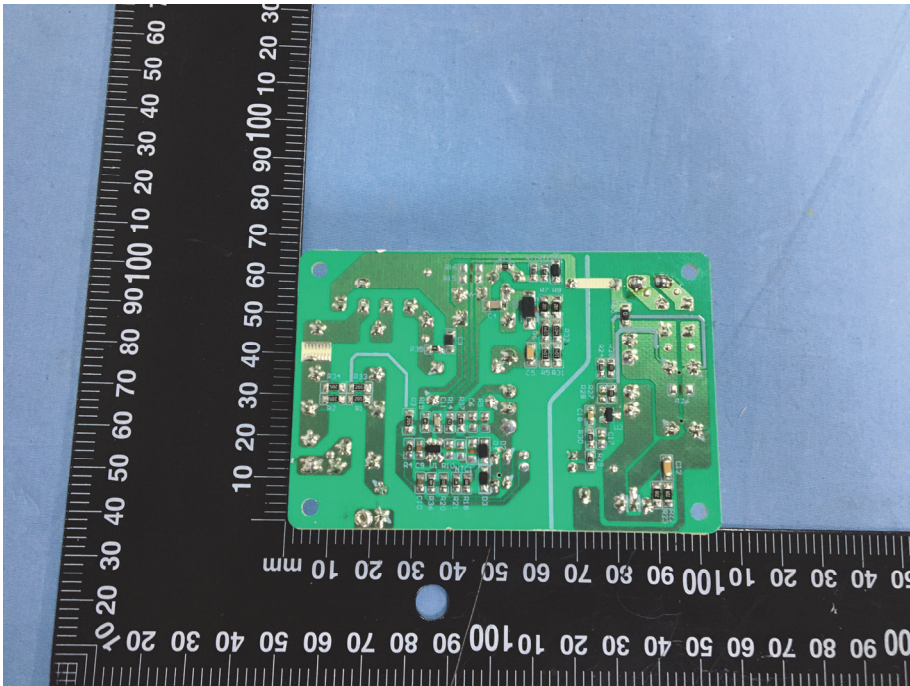

**EUT Housing and Board  
View 2**

<p style="text-align: center;"><b>Solder Board-Component View 1</b></p>	 <p>A photograph showing the solder side of a green PCB component. The component is rectangular and populated with various electronic components, including a large electrolytic capacitor labeled '1000µF 35V', a smaller capacitor labeled '330', and several integrated circuits. The PCB is marked with 'RR270 Charge Board', 'VER B.0', 'SIZE: 50', and 'DATE: 20'. The component is placed on a blue surface next to a black ruler with white markings in millimeters, showing its dimensions are approximately 50mm by 40mm.</p>
<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	 <p>A photograph showing the component side of the same green PCB component. The component is populated with various electronic components, including a large electrolytic capacitor labeled '1000µF 35V', a smaller capacitor labeled '330', and several integrated circuits. The PCB is marked with 'RR270 Charge Board', 'VER B.0', 'SIZE: 50', and 'DATE: 20'. The component is placed on a blue surface next to a black ruler with white markings in millimeters, showing its dimensions are approximately 50mm by 40mm.</p>

<p><b>Solder Board-Component View 3</b></p>	 A photograph showing the top view of a populated printed circuit board (PCB) with various electronic components. The board is white and populated with a yellow electrolytic capacitor, a black integrated circuit, several resistors, and other surface components. A black ruler with white markings is placed vertically to the left of the board for scale, showing measurements in millimeters. The board is set against a blue background.
<p><b>Solder Board-Component View 4</b></p>	 A photograph showing the bottom view of a printed circuit board (PCB). The board is green and populated with numerous surface components, including resistors, capacitors, and integrated circuits. A black ruler with white markings is placed vertically to the left of the board for scale, showing measurements in millimeters. The board is set against a blue background.
