Family Certification request letter

We hereby request Family Certification for the above mentioned HVINs/Models based on them being electrically, and physically identical apart from model name/number and the differences mentioned below:

1. Models IQ Keypad Prox-PG and IQ Keypad-PG are using the same PCB assembly/layout UA768 Rev. 02 and the only difference is that the model IQ Keypad-PG does not use the proximity tag access feature.
2. Models IQ Keypad Prox-PG and IQ Keypad-PG use the same integrated PowerG RF circuitry with the same antenna type and gain
3. Models IQ Keypad Prox-PG and IQ Keypad-PG have the same plastic enclosure

The model IQ Keypad Prox-PG that is the fully populated variant in the family has been used for testing and the results are representative also for model IQ Keypad-PG.

Sincerely,
