## Pairing Bluetooth Devices to Your Speaker

In order to pair your Bluetooth audio device to your Bluetooth Speaker for the first time, follow the steps below:

- 1). Make sure your Bluetooth audio source is held within three meters of your speaker.
- 2). Slide the ON/OFF switch on your speaker to the ON position. The LED light will alternately blink red and blue to indicate that you have entered pairing status.
- 3). Go to the Bluetooth Manager of your Bluetooth audio source. Please refer to the User's Manual of your Bluetooth audio source for more information.
- 4). Search Bluetooth devices and select "TA-11BTSP" to start connecting.
- 5). Enter "0000" if your device asks for the PIN code.
- 6). Once paired, the blue LED light will turn on steadily and you can use your speaker to listen to audio from your Bluetooth sound source.

## AUX IN Mode

When the included 3.5mm Auxiliary Cable is connected to the AUX IN jack, the system will automatically pause any audio being streamed from a paired Bluetooth device. The blue LED light will turn off and the speaker will enter into AUX IN mode. Audio will be played from the sound source connected to the 3.5mm Auxiliary cable.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, Human proximity to the antenna shall not be less than 20cm(8 inches) during normal operation. Proposed RF exposure safety information to include in User's Manual.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the manufacturer's instruction manual, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio/TV technician for help.
