Polaroid

Smart Watch | SW1502

User Manual

Congratulations on your new ownership of a Polaroid smart watch. Please read the manual carefully for full understanding of all operations and functions of your new smart watch.

This Polaroid Smart Watch accepts a GSM SIM card(850/900/1800/1900MHZ) and a Micro SD card (up to 32GB). It is not only a watch phone, but you can also use the Bluetooth to sync your iPhone & Android phone's music player, calls, call history, phonebook.
It can also sync the new SMS messages, Emails and Facebook/Skype/Twitter notifications from your Android phone(Need to install the App on your Android phone).
It also has other functions such as Alarm, Calendar, MP3 player, Sleep Monitor, Pedometer, Remote Camera etc. It is manufactured for your personal, professional and active lifestyle.

1   What's Included
The following components are included with your purchased product:
- Polaroid Smart Watch
- USB Cable
- Instruction Manual
- Quick Start Guide
- App Guide
- Warranty Card

2   Appearance and buttons

3   Battery Charging
The Polaroid smart watch is equipped with a built-in rechargeable Li-ion battery. It is suggested to fully charge the battery before use.
Charging Process:
- Connect one end of the USB cable with PC or your smartphone charger, and then connect the other end of USB cable with your smart watch to charge.
- Users can still use the smart watch while it is being charged.

Warning: power adapter requirements: output current must be within 0.5A, using a power adapter with other specs may damage the watch.

4   Install SIM Card and Micro SD Card

Please refer to above drawings for how to install a SIM card and Micro SD card.
Remarks: please use the proper type of SIM card and a branded Micro SD card.

Anti lost: After connecting the smart watch with smartphone by Bluetooth, turn on the alarm function, your smart watch will alarm when your smartphone is a certain distance away from the watch.

9   Common Troubleshooting

If any problems appear when using the watch phone, please see the below solutions. If the problems still exist, please contact your local distributor or appointed repair centers for more assistance. The Toll free number can be found on the last page of the warranty.

9.1   Smart watch cannot power on

1. Press and hold the power button till screen reboots.
2. Check the battery power.
3. Remove battery and install the battery again, then power on.

9.2   No feedback from smart watch for several minutes.

1. Turn off the smart watch.
2. Remove the battery and install again, then power on.

9.3   Smart watch working time is short

If you do not charge the battery for enough time, battery level indicator might be inaccurate. Please wait about 20 minutes to get the accurate indication after removing the battery charger.

9.4   Smart watch cannot connect the network when install a SIM card

1. Please make sure your SIM card is installed correctly.
2. Please confirm the effective locations of SIM network with your network supplier.
3. Please make sure your SIM card is still valid.
4. Try to select the network manually.
5. Please try it later if the network is busy.

9.5   Smart watch cannot dial a phone call.

1. Please make sure the telephone number is correct and press the call button.
2. For international calling, please check the country code and area code.
3. Please make sure the phone is in network and not in busy status.
4. Please make sure your SIM card has available funds for calling.
5. Inquire with your network supplier (such as limit, SIM card validity and so on)
6. Please make sure you did not set the call limit in settings.
7. Please make sure you did not set the fixed dialing.

9.6   Music cannot be played.

1. Please check if the music format is compatible, such as MMF format.
2. Please check if the music file is saved under "My Music" folder.

9.7   Smart watch can not sync SMS

1. Please make sure you have downloaded the App on your phone
2. Please check that you have activated the Bluetooth notification function in your Android phone after installing the App.

9.8   Some apps cannot run.

Some functions, like local dialer, need you to install the SIM card, some other functions, like camera, need memory space so that you need to install the SD card.

9.9   Watch cannot receive notification from my iPhone.

It only supports Android smartphone for notification, but not iPhone.

10   Important maintenances precautions

In order to offer your Polaroid smart watch with good maintenances, please always follow the below basic precautions:

- Keep it a safe distance from the strong magnetic field.
- Keep it away from water.
- Keep it and its accessories away from children.
- Prevent the device from falling or impact during usage, as this may cause damage to the smart watch.
- Do not use the device in a extremely humid environment, because moisture penetrates inside and may damage the smart watch without the possibility of repair.
- Do not clean your smart watch using harsh chemicals, detergents and chemicals that can dissolve the plastic.
- Do not place other objects on LCD screen, as it may crush and damage the LCD screen.
- Do not use any sharp objects to touch the LCD screen, as this will scratch the screen.
- Do not attempt to dismantle the smart watch by yourself to do any repair, this will damage the smart watch and void the warranty.
- Never use the watch while driving! Keep your eyes focused on the road.
- Please inquire from the qualified seller of proper SIM cards which are suitable for the watch.
- Availability and network speed depend on user's 2G network, and fees apply.
- Please turn off the watch in aircraft and follow any restrictions. Wireless devices can cause interference in aircraft.

11   Battery Management

The battery is not fully charged from factory, so it is recommended that you charge the battery for at least 1 hour before you start to use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As same with all of lithium batteries, the capacity of the battery reduces each time it is charged. However, you can still try to prolong the battery's lifetime by following the suggestions below:

- Use your Polaroid smart watch at least once a week.
- Fully charge the battery regularly.
- Never leave the battery fully discharged for a long period of time.
- Always keep the device and the battery away from heat and moisture.

12   Regulatory Information

FCC Notice

This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- Consult the dealer or an experienced radio/TV technician for help.
