Quick Start Guide

In order to use your tablet PC safely and effectively, please read the following information carefully before use.

Safe Boot

In an area (such as airplanes, hospitals) where wireless devices are forbidden, please comply with all posted warnings and authorized officer's instructions.

If you need to use the non-network services of the device, you can switch to flight mode. Hold the 【ON/OFF】button, and then select the flight mode.

Waterproof

Keep the Tablet PC dry, away from rain, humidity and all types of liquids that may contain minerals that will corrode electronic circuits.

Interference

Mobile communication may be subject to radio interference, which could affect performance.

Traffic Safety

Do not use the tablet PC to call when driving, so as not to disturb safe driving.

In restricted areas please shut down

Please comply with restrictions or regulations. On a plane or nearby inflammable substance, chemicals or medical equipment, Tablet PCs should be shut down.

Tablet PC placement

Place the Tablet PC and its accessories out of children's reach.

Accessory and Battery

Please use the specified battery and charger.

Do not attempt to disassemble the Tablet PC and accessories, if it needs service, contact your authorized service centre.

Install SIM or USIM card

When ordering a mobile phone service, you will receive a Subscriber Identity Module (SIM) card, which contains detailed information of your order, such as a personal identification

number (PIN) and optional services. To use UMTS or HSDPA services, you can purchase a Universal Subscriber Identity Module (USIM cards).Install the SIM or USIM card:

If the Tablet PC is switched on, please hold the 【ON/OFF】 button and select "Shut Down" to turn it off.

Remove the back cover. When you remove the back cover, please be careful not to hurt your nails.

Insert the SIM or USIM card.

Place the gold touch spot of the SIM or USIM card face down, and insert it into the Tablet PC.

If you do not insert the SIM or USIM card, you can use wireless services.

Please do not insert the memory card into the SIM card slot.

Replace the back cover.

Battery charge

Before using the Tablet PC for the first time, you must charge the battery. You can use the provided travel charger or through the computer data cable to connect the Tablet PC and the computer to charge for the Tablet PC.

Only use the charger and the USB cable provided with the tablet. Unauthorized cables will cause the battery exploded or damage your Tablet PC.

When battery is low, the Tablet PC will issue a warning tone and show the information. If it's too low, the Table PC will shut down automatically. You need to recharge the battery to continue to use.

¬ **Travel charger charging**

″ Insert the small end plug of the travel charger into the multifunction socket. If the travel charger is connected incorrectly, you may cause serious damage to the Tablet PC. Any damage due to misuse will not be covered under warranty

1. Insert the big end plug of the travel charger into power

〞 Using the Tablet PC when charging, this will extend the charging time;

〞 When charging, the Tablet PC will may get warmer. The phenomenon is normal, and will not affect the life or performance of the Table PC;

〞 If the Tablet PC is not charging properly, please take the Tablet PC and charger to your authorised customer service center to have   checked.

2.   When the battery is fully charged   disconnect the travel charger and the Tablet PC connection, then pull it out from the power jack.

Use USB cable to charge

Before charging, please make sure that the Tablet PC has been turned on.

1.Plug one end (micro USB) of the USB cable into the multifunction socket.

2.According to the type of USB cable, connect the other end to the computer's USB port, you may need to wait for a moment to begin charging.

3.When the battery is fully charged, disconnect USB cable with the Tablet PC, then pull out it from the computer.

Insert memory card (optional)

If you want to store other multimedia files, you can use the SD card or insert the memory card. The Tablet PC can use micro SD™ or micro SDHC™.

Micro SDHC™ memory card capacity up to 32GB.

〞 The Table PC supports only the FAT file structure. If you insert the memory card with other structure, the Tablet PC will be asked to re-format the memory card.

〞 Frequent writing and deleting data will shorten the life of the memory card.

〞 When you insert the memory card in the Tablet PC, The

1.   Remove the back cover.
2.   Insert the memory card and ensure the golden touch spot is faced down.
3.   Push the memory card into the card slot until it locks into place.
