FEATURES/PARTS

- A. Multifunction Button & Power Button
- B. Volume Down/Rewind
- C. Volume Up/Fast Forward
- D. LED Indicator Light
- E. Charge Port

CHARGING THE EARPHONES

The headphones come with a built-in rechargeable battery. Before using it for the first time, we recommend you charge the battery fully. Only use the supplied USB cable to charge the headphones. Connect the USB cable to a computer USB port and the USB plug to the charging jack of the headset. The red LED light will illuminate while the earphones are charging.

A full charge of the battery takes around 3 hours. When the battery is fully charged, the LED light will turn off. Disconnect the headset at this point. The headset will then be ready for use.

When the battery is low, the LED will flash red three times and emit a beeping sound. When this occurs, please recharge the headset.

TURING HEADSET ON /OFF

Power On: Press the MFB button 4s to turn on the unit, you can see the red and blue LED flash alternative.

Power Off: Press and hold the Power on/off button for 5-6 seconds until the red LED flashes once and the “off” tone sounds.

In order to save power, the headset will automatically turn off if not paired with a device after 5 minutes.

PAIRING THE EARPHONES

1. Ensure the headphones are turned off. If they are not, please turn off the earphones first before pairing.
2. Press and hold the Power on/off button for 5-7 seconds until the

red and blue LED flash alternatively. This will indicate your earphones are now in pairing mode.

3. Place the headphones and the Bluetooth device to which you would like to pair it within the operating distance. We recommend keeping the two devices no further than 3 feet apart.
4. Ensure Bluetooth is enable on your phone or music device. Refer to the manufacturer`s instructions for how to enable Bluetooth on your device.
5. Once you have activated Bluetooth on your device, select the headphones “BT-HDSET” from the list of available Bluetooth devices. If prompted, enter the pin of “0000” followed by “ connect”
6. Please note, pairing mode on the headphones will last for two minutes. If no devices are paired after two minutes. If no devices are paired after two minutes, the headphones will automatically return to standby mode.
7. if pairing is unsuccessful, turn off the headphones first and repair following the aforementioned steps. Once you have paired the headphones with a device , the headphones will remember this device and will pair automatically when the device`s Bluetooth is activated and in range, you do not need to re-pair any previously connected devices.

8. When paired successfully, the blue LED of the headphones will flash twice quickly and then the blue LED will blink steadily to indicate paired mode.

ANSWERING A CALL

Once the headphones are paired to your device, you can answer calls directly from your headset. Please see below for a table of how to control calls from your headset.

Function	Status of headset	Operation
Answer calling	Ringing	Short press MFB
Volume up	Conversation mode	Short press or long press “▶▶”key, when the volume is Adjusted to maximum, the headset will beep to notify you.
Volume down	Conversation mode	Short press or long press “◀◀”key, when the volume is adjusted to

		minimum, the headset will beep to notify you.
REJECT a CALLING	Ringing	Press and hold the MFB 3 seconds. The call will be sent to voice mail

LISTENING TO MUSIC

Once the headphones are paired to your device, you can stream music wirelessly to the headset. Select the track you wish to listen to on your device to listen via headphones. Should you encounter any problems while streaming, please refer to your device's user manual.

Battery capacity: 120mah

Charging input: DC5V 140mah

Charging Time: 3hours

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
